Subject: Ballinderry pit Broadford

Hi Noeleen

I am just making enquiries was there someone from the Epa out at above mentioned site on Thursday 3rd of January at about 1 30 pm and if so could we get a copy of the report please ?

We are always keeping our eyes on that pit because of so many unauthorised activities thousands of tons of waste from Dublin was brought into this pit almost two years ago without permission ,which we see as a crime. Kildare co council ordered it to be removed but it never happened on 17 December 2018 a machine was moved onto the site we thought great its finally happening waste is going to be removed . No instead the council is seemly rewarding the same company that brought in the illegal waste from Dublin by giving them permission to remove stockpiles of grit from the pit which we taught was left for remediation of the pit yet the illegal waste is still there and why is this let happen we are a small voluntary group trying to keep our area free from illegal dumping all we see is the constant movements of trucks in and out this pit and no monitoring being done only by us and only if we make a complaint this is not good enough my well and most other wells are contaminated in this area it has been a ongoing battle with Kildare co council to get these sort of activities stopped and to enforce the law. we believe this has become a public health issue Could you or someone from the Epa meet with our group and listen to our numerous concerns and the concerns of all residents living in this Area. Kind Regards Paddy Maguire chairman BARA [REDACTED] Sent from my iPhone
