Subject: objection to landfill at ballinderry broadford co. kildare
Date: 03 March 2019 22:53:59

hi niamh,

I am a resident approximately 200 meters from the site in question, I have lived in this area for the last 16 years, I have a real concern about the pit, and the quality of the water in our area and, the proposal to turn it into a land fill site.

I feel that the road outside my house is not suitable for this development to be given the go ahead, people like to walk on this road in this area and i feel it would be a danger to pedestrians as there is no footpaths on either side of this road. I also have two children here with astma who find breathing more difficult in spring and summer months from the dust that is risen from machinery working in this pit. There is also thousands of gallons of stagnant water in a large pond which no one seems to know how deep it actually is, A lot of wells in this area are polluted and the cause is unknown, I have tried to lodge an objection on the epa website but I was unable to do so, I would much appreciate if you would take this letter as an objection and submit it to the application for this site to be a land fill, my address and post code are [REDACTED], regards
finbarr o reilly.
