To the Environmental Protection Agency submission in relation to application for a licence by Dairygold co-operative society Ltd and Tine Ireland Ltd for the emission of waste from there Mogeely Co.Cork facility

Reg no:P1103-01

We wish to object to the application by Dairygold Co-Operative Society LTD and Tine Ireland LTD for permission to discharge up to 4 million litres of waste water on a daily basic to Rathcoursey from their cheese plant at Mogeely Co.Cork.

The proposed outlet area in the inner cork harbour is a beautiful science area and is also the home of many migrating birds and wildlife it's close to the special protected area of Great Islands North Channel

East Ferry/Rathcoursey area has it's own rowing club and is also widely used for kayaking windsurfing and fishing, Many boats come to the Inner Harbour to bass fish. This area is polluted enough and we should be trying to clean this are not polluting it more.

We do not have an objection to Dairygold plant in Mogeely but would question the pumping of waste water more than 14KM to the outlet in Rathcoursey

Yours Sincerely

Joyce and Alan Pomphrett
