I wish to object to the granting of licence number P1103-01.

It is obvious that a lagged, heated pipe of 14km to carry effluent to East Ferry is to stop this grease, fat and oil from solidifying.

When this effluent enters Cork harbour at East Ferry, it will solidify when it meets the cold water. This will create lumps of fat which will float in the harbour. This will have a detrimental effect on bird, fish, shores, amenities and tourism. This is why I object to P1103-01.
