Dear Dins,

On returning from holidays

last weekend we recieved from  
 your office the new development  
 plans of Goode Concrete htel. for  
 the proposed plant at Balliderny  
 Corbury, Co. Kildare. Our solicitor  
 is away at present so we  
 find it necessary to inform  
 you of our observations etc.  
 ourselves.

For inspection purposes only.  
Consent of copyright owner required for any other use.

Goode concrete are  
interested in only one thing,

that being that their appeal will be successful.

We still stand by our original objections. The proposed re-routing of the road past our house will be as far as we are concerned catastrophic. As well as being denied access to the road itself the creation of such a cul-de-sac will inevitably lead to its use as a filling site + for the dumping of rubbish. It will also leave our property more vulnerable to trespass + break ins. We are the only person in the area

who will suffer<sup>3</sup> as a result  
of the new public road.

We repeat our  
objections to the proposed  
development in its entirety including  
the new development plans, for  
the reasons already set out  
in an original notice of  
objections which is on your  
file.

We repeat that the  
granting of planning permission  
for this quarry will deprive  
us of our lawful use &  
enjoyment of our home &  
land. The noise & pollution

on the local environment. goods  
concerns on the other hand are  
interested only in the financial gain  
they will get from the  
development.

We call on the planning  
Authority to please address our  
particular concerns & objections  
both in the original Notice of  
objections & in this letter  
& refuse planning permission  
for this proposed development.

For inspection purposes only.  
Consent of copyright owner required for any other use.
