Hi Breda,

Meath County Council responded directly to me in response to the attached correspondence.
Could you arrange for the email correspondence to be uploaded on the website please?

Thank you.

Regards,
Áine

Subject: FW: EPA Licence Review P0037-04 - Request for Comment regarding Planning Permission

Sean,

As per the email below from Aine Murphy of the EPA, She has described that in a current license application that she is assessing, College Proteins propose an increase intake of 30,000 tonnes per annum. To my knowledge this quantity was not included in the EIAR for the last permission on site:

KA/180354

Permission to amend a permitted Biodiesel Manufacturing Facility (Meath County Council Reg. Ref. KA/160786), on a site of 1.49 hectares. The development will consist of the reconfiguration of the process building and associated tank farm and the provision of a new gas electricity generation unit with heat recovery. The reconfiguration on site will consist of: A revised configuration of the process building, resulting in an increase of c.53 sqm in the gross floor area of the building from c. 3,284 sqm to c. 3,337 sqm. There is no increase in the overall height of the building; An increase in the footprint of the tank farm and number of external storage tanks from 12 no. to 21 no.; Amendments to the permitted drainage layout; The proposed amendments do not result in an increase in the overall permitted production of 25,000 tonnes of biodiesel per annum. The following works will be completed as enabling works (as permitted under Reg. Ref. KA/160786): Site access works, excavation works and gravel infill to allow for the provision of foundations for the permitted layout of the process building. The application relates to development which comprises or is for the purpose of an activity requiring an Industrial Pollution Prevention and Control Licence (now replaced by an Industrial Emissions Licence). An Environmental Impact Statement (now referred to as an Environmental Impact Assessment Report (EIAR)) will be submitted to the Planning Authority with the application

Therefore it is considered that this alteration has not been assessed in the EIAR associated with the planning application and does not have planning permission.

Subject: EPA Licence Review P0037-04 - Request for Comment regarding Planning Permission

Billy Joe,

As discussed during our phone call, College Proteins Unlimited Company, College Road, Nobber, County Meath, A82XT61 have requested a licence review under licence application register no. P0037-04. Documentation related to this application is available at the following link:
<http://www.epa.ie/terminalfour/ippc/ippc-view.jsp?regno=P0037-04>.

The letter attached outlines the Environmental Protection Agency's request for comment from Meath County Council in relation to this licence review application in accordance with 87(1E)(c) of the EPA Act 1992, as amended.

In this letter, the Agency specifically requests for Meath County Council to confirm or otherwise, that an increase of 30,000 tonnes per annum of animal by-products is permitted for processing on site under the associated planning permissions granted - reference KA180354 and KA/160786. The following 'Letter from Applicant - Attachment 1-2 Non Technical Summary FI', describes the licensee's proposed increase in tonnage as part of the licence application (see page 3): http://www.epa.ie/licences/lic_eDMS/090151b2806f96de.pdf.

I would appreciate it if you could provide a response regarding the above by Wednesday the 11th of December, to allow this matter to be progressed further.

Thanks in advance.

Kind regards,
Áine

Áine Murphy
