Dear Sir / Madam,

I am writing to object to the EPA granting a licence to Dairygold to dump their waste from their cheese factory into the Water at East Ferry.

This water waste should be fully treated before being released into the water and not just treated to a grey level. The area it is being released into is beautiful and deserves maximum protection.

This is my home and the home of many more. Why should Dairygold get to damage it so they can make money?

I am 11 years old and at 11 I know this. So at many years more, why should they not? I don't think Dairygold should get permission to destroy a place where lots of beautiful fish, animals, birds and beautiful creatures live.

Can you please help stop this so as many amazing creatures won't die. Dairygold are greedy for money and that is why they are doing this. You have the power to protect this lovely area. That's all I can say.

Thank you.

S
