To Whom it may concern:

I am very concerned regarding the proposal to discharge massive amounts of industrial waste into the channels of Cork Harbour.

Migratory birds use this area, sea life will also be affected. The proposed outfall is too close to Special Areas of Conservation. The type of effluent would impact very negatively on this sensitive environment.

The location does not clear through adequately with the tide for either the quantity, or type of effluent to be carried out, and will impact significantly, and cumulatively on the species in this area.

Possible alternatives have not been given due consideration by either Dairygold or the public authorities, my understanding is there is a legal obligation to do so.

Cork Harbour needs to be viewed as a public amenity & area of conservation, not a dumping area.

I trust this views along with many others will prevent this ill-considered destruction going forward.

Mise le meas,

Eleanor Fitzgerald
