Dear Sir/Madam,

I refer to EPA correspondence dated 29 August 2019 regarding an Industrial Emission Licence application from Blancomet Recycling IE Limited for their facility at Unit 5 Rosemount Park Drive, Rosemount Business Park, Dublin 15, D11 FVH2 and the subsequent Section 99E reminder notice dated 14 May 2020.

On review of Application details held on the public file, I note that a request for further information (RFI) was sent to the applicant on 17/06/2020. As the RFI seeks clarification on the proposed discharge to sewer and the stormwater drainage system, Irish Water will need to review the response from Blancomet Ireland IE Limited prior to responding to the Section 99E consent request.

Furthermore, we also ask that the following additional information is requested from the applicant:

- Outline what activity is producing a trade effluent onsite
- Provide details of how the proposed volume/day as per 7.3.1 – Emissions to Sewer has been calculated
- Provide details of how the proposed emission limit values (mg/l and kg/day) for named parameters as per 7.3.1 – Emissions to Sewer have been calculated
- Confirm if the proposed sampling point SE1 will include sanitary/domestic type effluent

If you have any further queries, please do not hesitate to contact Irish Water.

Yours sincerely
