Hi

I refer to your previous email regarding Notification from EPA in relation to P1031-02 Kilfilum Limited EPA043831

Kerry County Council Planning Dept concurs with the determination of the EPA that this proposal is one which requires both Environmental Impact Assessment and Stage II Appropriate Assessment.

Regards

Liam Brosnan
AO Planning

Liam,

The agency are requesting clarification on the following:

Please state whether the activity to which the licence application relates is permitted by the planning permissions granted for the site and confirm if the planning permissions granted allow for 4,270 production pigs.

Can we ascertain if there is a permission on site authorising same? And

Eoin / Cathy: Are there any other comments we wish to make in relation to the EIAR submitted?

All the best,

Damien.
