Subject: Submissions and observations

A Chara,

I'm emailing in relation to Dublin Port Company's application to the EPA for a Dumping at Sea Permit.

Regarding submissions/observations, the notice states that they should be made in writing. In light of Covid, is it okay to email such submissions?

Also, where can submissions/observations be viewed on the EPA's website? I cannot seem to find them.

Many thanks in advance for your help.

Kind regards,

Fiona
