Hi Eve,

Meghan has forwarded your email to me.

We will review the email address for these communications to ensure the EPA's communications are going to an active account from where they can be redirected to the appropriate individual(s), following which we will send you the appropriate email details

In response to the original email reviews of WWDLs should also consider the requirements of the River Basin Consent of copyright owned required for an Management Plan and the Water Services Policy Statement where appropriate to the licenses being examined.

Kind regards

Dónal

Dónal Cronin Policy Adviser
