Dear EPA,

I am writing this anonymously as I have a relation that works there so I am not able to speak out about this. The pig farm at Ashleigh house Ballinameela Cappagh Dungarvan has applied to the to review the licence to increase the amount of pigs on the farm. My relation told me they are also applying for an incinerator to burn the dead pigs bodies as well.

This to my mind is a disgrace but I cannot speak out about it. Imagine the smells from burning pigs all over our beautiful parish and what about the smoke and dust from the chimney. I am going to write to the EPA today and ask them not to allow this incinerator. I'm sure this incinerator would need planning permission also.

I don't want my grandchildren to grow up in an area which smells of burning pigs and where they could be inhaling dioxons.

Yours sincerely

A VERY WORRIED LOCAL
