EPA REF number: P0606-04

Submission on Industrial Emissions licence review application in the Register of Licences PO606-04 and Proposed Determination of a review of An Industrial Emissions Licence In Accordance with Section 87(2) of The Environmental Protection Agency Act 1992 as amended.

To whom it may concern,

I, Peter Sweetman, wish to make a submission to the above proposed determination on my behalf and on behalf of Wild Ireland Defence CLG.

The reasons for my submission are as follows:

1. No appropriate assessment screening was conducted. No appropriate assessment as conducted. The impacts on conservation interest species of the affected European sites has not been carried out in compliance with Article 6 of the Habitats Directive.
2. No regard has been had to achieving the objective of the water framework directive. The relevant water bodies have been characterised as at risk of not meeting good status. The inspector seems unaware of this fact and as a consequence ignores his obligations under the water framework directive.

3. The agency's assessment of the environmental Impact assessment has not been undertaken in accordance with directive 2011/92/ EU complaints of impacts to marine life in the estuary have not been addressed by the agency. The agency has failed to consider the culminative impacts of the emissions from the plant with other emissions to the estuary.
4. The development the subject of the PD does not have planning permission and is a materially different development to that that which was granted permission by an Bord Pleanála in 2010

For the above reasons the agency has no option but to refuse this application.

I am enclosing the fee of €126 and look forward to acknowledgement of receipt of this submission.

Yours faithfully

Peter Sweetman
