Pascal o Callaghan v waterford harbour commissioners under number 2001 .

No3401

Settlement agreements are lodged with the high Court of Ireland
These are related to access channel swing basin width and depth.

These agreements include hereditary succession rights and confidentiality clauses .. on behalf of the
cheekpoint fishermen's association we wish to object to further licences as our rights under the above orders
will be undermined traditional rights of way ability to avail of safe harbour and harbour of refuge will
be removed without agreement.. additionally further dredging will impact the environment.

Yours sincerely
Sean Doherty
