Submission ref License application P 0040 – 03

I Bernie Murray would like to submit an objection to the proposed license application by ABP, Ferrybank on the following grounds

Their inability to control or eliminate the smell that comes from their activities from that site

Also the escalation of noise over the past year or two.

I believe the scale of the site is already too big for its setting in a mainly residential area.

We live opposite this factory and see lots of seagulls at their drain pipe on the river and cannot imagine that's a good thing.

On many occasions we have had to cancel get together of family and friends due to the smell

Especially when it north or easterly winds, it's quite embarrassing

We love where we live and feel this factory is already too big and unable to contain their activities with odour and noise.

And any further development would be detrimental for the residents of Waterford

Signed

Bernie Murray
