The smell from the plant is so bad. I cannot open windows or enjoy my garden fully. Even during the covid lock down, when the health advice was to have windows open, as the smell would have filled the whole house.

Concerned about the constant output from their chimney and its location so close to residential areas, with schools, houses, hospitals, Nursing Homes, Hotels,shops etc both in Waterford and Kilkenny, it is not appropriate for the well-being of the people in the area.

The bad smelling trucks on the road, in the morning and evening both going to the plant and coming from the plant, when out walking or being behind one when driving is very unpleasant. Not all the trucks seem to follow the correct procedures for moving hazardous waste. Hazardous waste left behind on the road. (The same road which is used by children to walk to school and home).

Concerned about their ability to follow safety standards and the number of breaches in regulations in the past. And their ability to cope with new expansion in the future and the health risks it poses for the area.
