To whom it concerns

As a ferrybank local I strongly reject and oppose the proposal for licence renewal of abp rendering plant in any location , especially in ferrybank.

As a local to ferrybank my and my families life have been negatively impacted by the disgusting treatment of abp to animal life and animal waste.

Abp are not following the epa specific protocols which is leading to animal waste being transported in unethical ways to which I no longer want to be a witness. You must do the right thing.

Refrigerated trucks are not being used to transport animal products which leads to an incredibly disgusting odour which lingers in the air for hours and has directly impacted my summer and my home. Also the correct method of disposal is not being adhered to .

This is wrong and unethical and it must stop now.

I have witnessed animal fluids and parts falling on the road in front of me which has me permanently traumatised. How can you allow this to happen.

The smell and the impact this is having on the residents of country waterford is massive and longlasting.

Stop this now.
