To whom it may concern

Proposed Licence No. P0040-03

Applicant Name: Anglo Beef Processors Ireland Unlimited Company

I am a resident in Ferrybank and wish to object in the strongest possible terms to the proposed increase of 60% in the above company's rendering activities.

My objections are on several fronts as follows:

Odour

At certain times the odour from the plant is unbearable if I go into my garden. I think this occurs when they are "cleaning the stack" at night. The smell is simply disgusting and smells of death.

Vehicles bringing carcasses to the plant

On many occasions I have driven behind vehicles bringing carcasses to the plant and the smell from the contents is breath stopping. These trucks also leak fluid which I understand is probably bodily fluids from dead animals. How healthy can that be on a main road past large residential areas?

Health

I believe that it cannot be healthy to be exposed to an inhale these odours at such regular intervals. I have some health issues including decreased lung activity and this issue simply makes it impossible for me to breathe.

Even when I close all windows and doors the smell permeates through and makes it uncomfortable to enjoy my own home.

Right to enjoy my garden and my surroundings

I believe that I have the right to enjoy my home and garden in comfort and the mere presence of this plant makes that impossible.

Thank you for reading this submission. I hope that long term the plant will relocate to a more suitable location away from residential areas.

Kind regards

Mary Darlington
