To whom it concerns,

I wish to voice my complaint concerning the license renewal of Anglo Beef Processors's license in Ferrybank.

The smell is so powerful some days that it prevents us from going outside.

The fumes at the school in Ferrybank Is another concern of mine. It is so strong that I have to hold my breath. I have recently heard that Waterford has the worst air quality in Ireland. I believe this plant is a part of the problem. I ask that the EPA consider a full review of the air quality in the area over an extended time so as to ascertain the circumstances.

I am absolutely appalled that this processing plant is near such a built up area. This plant should be relocated to a more rural area where it can effect less people. It is unsanitary and I can't believe it ever got a licence at all.

Regards

Gemma O Leary
