Re: Frequent Odour issues In Ferrybank and Dunmore Road, Waterford

To whom it concerns,

I am a property owner in the vicinity of the AIBP rendering facility in Christendom, Ferrybank, Waterford.

I refer to the above application by AIBP and would like to voice my objection to this application. The smells that continue to emanate from this operation which impact on the air quality in South Kilkenny and across the river in Waterford City demonstrate the utter contempt that this operator has for the residents in the area for decades.

The EPA vision statement is interesting. It states, "Our purpose is to protect, improve and restore our environment through regulation, scientific knowledge and working with others while living sustainably in a healthy environment that is valued and protected by all."

The reality is that over the last 20 years the EPA has abjectly failed to protect, improve or restore our environment in the vicinity of AIBP Christendom. The EPA have been aware of these odour problems for decades and have overseen zero improvement.

Kind regards,

Ben Cronin
