S0016-02

A Chara,

Please find the Nature Conservation recommendations.

The proposed seabed dredging operations within Rosslare Port, Co Wexford has been evaluated by a Natura Impact Statement and other documentation. The conclusion of the Natura Impact Statement document is that the proposed works are unlikely to pose a significant likely risk to nature conservation interests in the vicinity provided appropriate mitigation is implemented as outlined in section 7.3.

National Parks and Wildlife Service recommends that mitigating measures outlined in Section 7.3 of the Natura Impact Statement are attached as a condition of consent.

Regards,

**Simon Dolan**
