Dear Sir/Madam,

I am a very concerned senior citizen for the future sustainability of Ferrybank & Waterford and the impact of the proposed expansion of the A.B.P. plant on residents and the wider community.

I HAVE SERIOUS CONCERNS REGARDING AIR quality.It is well documented that residents have experienced a higher rate of illness due to Norovirus since the establishment of the A B P plant.I wish to ask the E.P.A to urgently ramp up their monitoring to European standards as per the E.P.A's own vision," TO PROTECT,improve and restore our environment through regulation,scientific knowledge,working with others while living sustainably in a healthy environment that is valued and protected by all"

It is imperative that the E.P.A.exercise due diligence in their monitoring of the A.B.P plant,ensuring it complies fully with European standards and thus protecting the local environment and its inhabitants.

YOURS FAITHFULLY,
Mesa Hearne
