A chara

Thank you for your recent notification of the above-mentioned application which relates to a facility in the low reaches of the Argideen River.

The application is effectively seeking a licence for intensification of an existing facility, which is in close proximity to the Argideen Estuary, an at risk waterbody.

In this context it is difficult to see how the granting of a licence to the current application could be viewed as sustainable development or in keeping with the requirements of the Water Framework Directive.

Michael Mc Partland  
Senior Fisheries Environmental Officer.
