Subject: RE: Dumping at Sea Permit Application Reg No S0037-01 - Wicklow County Council

Good day,

As the proposed licenced activity impacts safety of navigation, and is over a long period of time, and as per similar licencing or consenting processes in the Irish maritime domain, the information required is provided through the EPA licencing process. As such information needed, as brought to the EPA's attention below, ***is requested from applicant and provided to the MSO so an appropriate review and comment on the licence application as per current legislative requirements.***

Regards,
Steve
