

ATTACHMENT G  
DECOMMISSIONING AND AFTERCARE

For inspection purposes only.  
Consent of copyright owner required for any other use.

**G.1. Decommissioning**

The facility comprises of three sheds and an administration block. These buildings are located adjacent to two other businesses that are run by the applicant, a retail outlet and a plant hire operation. In the event of the winding up of the waste management side of the applicant's business these facilities can be utilised by the other two sections. These buildings could also be used for agricultural purposes or as commercial/industrial warehousing. In the event of closure all waste on site will be transferred to licensed facilities.

No toxic or hazardous waste will be taken to or handled at the facility.

**G.2. Aftercare Management Plan**

This is not applicable as once the type of waste being handled at the facility is removed there will be no requirement for ongoing post closure procedures.

In the event of the closure of the facility it can be used for other activities, such as agricultural purposes, commercial/industrial warehousing.

No toxic or hazardous waste will be taken to or handled at the facility.
