**ASSESSMENT OF ATMOSPHERIC EMISSIONS**

## ATTACHMENT I1 – ASSESSMENT OF ATMOSPHERIC EMISSIONS

Details of the existing atmospheric environment and the impact of the proposed remediation scheme and associated emissions (odour, dust and landfill gas) on the environment are provided in Section 7 of the Environmental Impact Statement.

Predictions of landfill gas volumes / concentrations / dispersion at and from the proposed engineered landfill are presented in the Air Dispersion Modelling Report prepared by Mouchel Parkman which is reproduced as Appendix 7A of the Environmental Impact Statement.
