Subject: Waste Licence Review Application for Ballaghveny Landfill 78-2

Dear Ms. Hermansen,

North Tipperary County Council have a query in relation to the acceptance of treated sludges at Ballaghveny Landfill.

Under the Waste Licence Review North Tipperary County Council applied to amend Condition 5.12.3 of the current Waste Licence which states that " from 1 January 2004, only treated sludges shall be accepted at the facility". NTCC requested that this date be extended to 1 January 2005 to allow for the proposed improvement works at Thurles Sewerage Scheme.

However there have been delays in the contract for the Thurles Works due to queries from the DEHLG regarding the selection of a contractor. The most likely start date for the works is now January 2005 and the completion date will be the end of September 2005.

At a recent EPA audit at the landfill the client was advised to inform the EPA of this delay under the Review Process.

Please can you inform me as to the status of the Waste Licence Review for Ballaghveny Landfill and this query above.

Thanking You,

Siobhan Aherne

Re: Ballaghveny Landfill – WL78-1 Request for Waste Licence Review

Dear Mr. Foley,

In accordance with the Waste Management (Licensing) (Amendment) Regulations, S.I. No. 336 of 2002, we wish to request a review of condition 8.2 of Waste Licence WL78-1 for Ballaghveny Landfill.

The reason for this request for review is the proposal to increase the post-settlement height of Cells 3-5 from 114mOD as outlined in the Waste Licence to 120m OD. We also refer to the MCOS Assessment Report (July 2003) and other further information provided to the Agency to date in this regard.

We are available to discuss the requirements of the review of this Waste Licence at your earliest convenience.

Yours sincerely,

Handwritten signature of Frank O'Halloran
