

## Attachment I - Management Plans

### Attachment I.1 - Conditioning Plan

The Environmental Impact Statement for the proposed expansion for the facility acts as a Conditioning Plan. The EIS will detail environmental and operation improvements proposed by the Company at the site. The type of facilities proposed for the expansion, and continuing investment by the company in recycling infrastructure, clearly demonstrates the Company's commitment to recycling and continual improvement.

### Attachment I.2 - Environmental Management System

An Environmental Management System, based on continual improvement, will be implemented in line with the requirements of the waste licence.
