RECYCLING

Unwanted newspapers & magazines

The Problem

Unwanted Newspapers and Magazines in Ireland are wasted:

- Over 150,000 tonnes are dumped to landfill each year
- Dumping them is expensive and costs are increasing
- Public opinion is against dumping
- Dumping them is bad for the environment
- Options for recycling are limited

The Solution

Indaver Ireland can provide a wheelie bin service for the collection and recycling of unwanted newspapers and magazines.

We will deliver a wheelie bin to your premises. These customised bins are attractive, secure, and available in two sizes, to suit your space requirements. The bins provide a clean and tidy storage unit prior to collection.

Indaver's dedicated fleet of specialised vehicles will make the collections.

There is a small refundable deposit for the bin and a fixed quarterly charge for the service, irrespective of the frequency of collections required. The service is efficient, reliable, and flexible to suit your needs, e.g. weekly, fortnightly or on request.

The Indaver team will be responsible for the delivery and maintenance of the bins and collection of the newspapers and magazines for recycling. This will provide a convenient, cost effective, environmentally friendly solution for the recycling of unwanted newspapers and magazines.
