re: **Notice in accordance with Article 8 of the Waste Management (Licensing) Regulations**

Dear Ms Burke

I am to refer to the above referenced application for a waste licence relating to a facility at Indaver Ireland, Waste Management Facility, Carranstown, Duleek. I am directed to advise you that it appears to the Agency that the notices published and erected or fixed on site in relation to the application do not comply with Articles 6 and 7 of the Waste Management (Licensing) Regulations (SI No. 185 Of 2000). The notices are misleading or inadequate for the information of the public in the following respects:

- a). The activities applied for should include Activities 7 and 8 of the Third Schedule of the Waste Management Act [Activity 7: *Physico-chemical treatment not referred to elsewhere in this Schedule (including evaporation, drying and calcination) which results in final compounds or mixtures which are disposed of by means of any activity referred to in paragraphs 1. to 10. of this Schedule (including evaporation, drying and calcination)* and Activity 8: *Incineration on land or at sea.*].
- b). The principal activity should be identified as Third Schedule Class 8: *Incineration on land or at sea;*

The Agency therefore requires you, in accordance with Article 8 of the regulations, to publish and fix further notices, in the following manner, for the following period and in the following terms:

1. Replace the existing site notice with an amended notice that complies with Article 7 of the Waste Management (Licensing) Regulations. The classes of activity to be undertaken need to be specified in accordance with the Third and Fourth Schedules of the Act (as amended by S.I. No. 166 of 1998) and the notice shall reflect the fact that an EIS is required to accompany the application.

2. Maintain the notice as amended at a location complying with Article 7 of the Waste Management (Licensing) Regulations, for a period of two months following the making of the specified amendment.
3. Publish the amended notice, in accordance with Article 6 of the Waste Management (Licensing) Regulations, in all newspapers which carried the original notice.

The Agency further requires you to submit the following evidence in relation to compliance with the above requirement:

1. An original of all newspapers and five copies of the relevant page of each newspaper in which the amended notice has been published.
2. An original and five copies of both a letter stating the date on which the amended site notice was fixed and a drawing showing its location on site.
3. An original and five copies of the text of the amended notice erected or fixed in accordance with Article 7.

The evidence requested should be submitted within two weeks of the date of this notice.

Please note that the format of the application's register number has been revised to 167-

1. Please direct all correspondence in relation to this matter to *Administration, Waste Management Licensing, Environmental Protection Agency, Headquarters, PO Box 3000, Johnstown Castle Estate, County Wexford* quoting the register number.

Yours sincerely,

**Dr Ken Macken**

**Inspector**

**Environmental Management & Planning Division**
