

Extract from the 423rd Meeting of the Agency, held on 12 October 2004, in Headquarters, Johnstown Castle Estate, Wexford.

9. **Recommended Decision on a Waste Licence**

- (i) *Licensee:* **Indaver Ireland**
Carranstown
Duleek
Co Meath
Register of Licence No 167-1

The Directors resumed consideration of a recommendation from the Office of Licensing and Guidance that the Agency approve the recommended decision. The Directors had deferred a decision on this matter, pending clarification of issues raised during detailed discussions at their meeting on 5 October 2004. The following documentation was again submitted: proposed decision; 127 submissions; summary report of the inspector and report from the Programme Manager, OLG. A copy of the licence application was tabled.

The Directors noted that the Office of Licensing and Guidance had had regard to all relevant waste management plans, in accordance with Section 40 of the Waste Management Act, when recommending the decision.

P Larkin, Director of the Office of Licensing and Guidance, gave a presentation clarifying issues raised by the Directors.

Inspector's Report and Programme Manager's Report

The Directors noted the Inspectors Report and the report of the Programme Manager, OLG, but did not agree with the recommendation on *Waste Types and Quantities*. They decided to allow the waste types applied for, having regard to the total tonnage.

Recommended Decision

Glossary of Terms

Include definition for '*residual municipal waste*'

Amend definition of 'Sludge' to read: The accumulation of solids resulting from chemical coagulation, flocculation and/or sedimentation after water or waste water treatment *with greater than 2% dry matter*.
