PAGE TWO

In connection with Carranstown Underwriters have been advised the following:

- (a) There are two male employees in attendance at this location.
- (b) Safety Training has been given to the employees and safety equipment has been provided to them.
- (c) The Centre is for general household recyclables
- (d) The duties of the Indaver employees are to usher general public in and out of the site and to load containers and cages mechanically by Bobcat with Forklift attachments for such containers and cages to then be removed from site for recycling.

It is imperative that we should be informed in advance should Indaver Ireland activities branch out to incorporate any other sites or involving the management of other waste commodities.

As agreed we have had further discussion with Underwriters on the level of minimum and deposit premium against the possibility of the Carranstown Contract terminating on and from 1st March 2003. After much discussion the only movement obtained from Underwriters is their agreement on mid-year review to rebate EUR2,000 by reducing the minimum deposit premium to EUR 23,000 subject to the following Conditions.

- 1. The Carranstown Contract has terminated on and from 1st March 2003.
- 2. That there have been no claims under the Policy.
- 3. If you have not set up or plan to set up another similar Civic Community Centre at another location.

In accordance with general practice there is now a War Risks Exclusion applicable to this Class of Cover.

Best regards.

Yours sincerely,

Martin Kavanagh
