Waste Licence Application re: Midland Waste Disposal Company Limited at Clonmagaddan, Proudstown, Navan, Co. Meath

Dear Mr. Whelan,

I am to inform you in accordance with Article 18(3) of the Waste Management (Licensing) Regulations, that additional information relevant to the EIS has been received by the Agency on 20/07/05. A copy of the additional information is enclosed for your information.

I am to advise you that any person may make a submission to the Agency, in writing, in respect of the application, pursuant to Article 15 of the relevant Waste Management (Licensing) Regulations, which provides as follows:

Extract from the Waste Management (Licensing) Regulations

Submissions to the Agency regarding applications.

15. For the purpose of Section 40(2)(b) of the Acts, a person may make a written submission to the Agency in relation to -
- (i) an application, and
  - (ii) such plans, documents and other information and particulars, including an environmental impact statement, as are submitted by the applicant in accordance with Articles 12, 13, 14 and 16,
- and the Agency shall not give notice of a proposed decision under Section 42(2) of the Acts before the expiry of a period of one month following the date of a relevant -
- (a) acknowledgement in accordance with Article 14(2)(a), or
  - (b) notice in accordance with Article 16(2)(a), or
  - (c) acknowledgement in accordance with Article 16(4),
- whichever such date is the later.

The Agency will have regard to any submission made in accordance with the Regulations and will write, in due course, to each person who makes such a submission, to advise them of the Agency's proposed decision on the application.

Yours sincerely

Ann Bosley

## Waste Management Licensing

### Details of Review Application, in accordance with Article 18(2) of the Waste Management (Licensing) Regulations, as of 25 July 2005.

**Application Reference/ Register No.:** 131-2

**Applicant Name/ Address:**

Midland Waste Disposal Limited  
Proudstown Road  
Navan  
Co. Meath

**Name & Location of Facility/ Premises concerned:**

Midland Waste Disposal Company Limited, Clonmagaddan, Proudstown, Navan, Co. Meath

**National grid reference of facility/ Premises**

286800 269800

*Note:* The class or classes of activity concerned in this application are detailed on the reverse.

**re: Review Application Reg No: 131-2, made by Midland Waste Disposal Limited, Proudstown Road, Navan, Co. Meath, in respect of a facility/premises at Clonmagaddan, Proudstown, Navan, Co. Meath. The class or classes of activity concerned in the above referenced waste licence application as of 25 July 2005, in accordance with the Third and Fourth Schedules to the Waste Management Acts, 1996 to 2003 are as follows (see the description of these activities below):**

*Third Schedule Class/es: 11, 12, 13/*

*Fourth Schedule Class/es: 2, 3, 4, 11, 12, 13/*

The applicant has specified the following as the principal activity: 4.4/

<b>THIRD SCHEDULE</b>
<i>Waste Disposal Activities</i>
1. Deposit on, in or under land (including landfill).
2. Land treatment, including biodegradation of liquid or sludge discards in soils.
3. Deep injection of the soil, including injection of pumpable discards into wells, salt domes or naturally occurring repositories.
4. Surface impoundment, including placement of liquid or sludge discards into pits, ponds or lagoons.
5. Specially engineered landfill, including placement into lined discrete cells which are capped and isolated from one another and the environment.
6. Biological treatment not referred to elsewhere in this Schedule which results in final compounds or mixtures which are disposed of by means of any activity referred to in paragraphs 1. to 5 or paragraphs 7 to 10 of this Schedule.
7. Physico-chemical treatment not referred to elsewhere in this Schedule which results in final compounds or mixtures which are disposed of by means of any activity referred to in paragraphs 1 to 5 or paragraphs 8 to 10 of this Schedule (including evaporation, drying and calcination).
8. Incineration on land or at sea.
9. Permanent storage, including emplacement of containers in a mine.
10. Release of waste into a water body (including a seabed insertion).
11. Blending or mixture prior to submission to any activity referred to in a preceding paragraph of this Schedule.
12. Repackaging prior to submission to any activity referred to in a preceding paragraph of this Schedule.
13. Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.
<b>FOURTH SCHEDULE</b>
<i>Waste Recovery Activities</i>
1. Solvent reclamation or regeneration.
2. Recycling or reclamation of organic substances which are not used as solvents (including composting and other biological processes).
3. Recycling or reclamation of metals and metal compounds.
4. Recycling or reclamation of other inorganic materials.
5. Regeneration of acids or bases.
6. Recovery of components used for pollution abatement.
7. Recovery of components from catalysts.
8. Oil re-refining or other re-uses of oil.
9. Use of any waste principally as a fuel or other means to generate energy.
10. The treatment of any waste on land with a consequential benefit for an agricultural activity or ecological system.
11. Use of waste obtained from any activity referred to in a preceding paragraph of this Schedule.
12. Exchange of waste for submission to any activity referred to in a preceding paragraph of this Schedule.
13. Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced.

10. Release of waste into a water body (including a seabed insertion).
11. Blending or mixture prior to submission to any activity referred to in a preceding paragraph of this Schedule.
12. Repackaging prior to submission to any activity referred to in a preceding paragraph of this Schedule.
13. Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.
<b>FOURTH SCHEDULE</b>
<i>Waste Recovery Activities</i>
1. Solvent reclamation or regeneration.
2. Recycling or reclamation of organic substances which are not used as solvents (including composting and other biological processes).
3. Recycling or reclamation of metals and metal compounds.
4. Recycling or reclamation of other inorganic materials.
5. Regeneration of acids or bases.
6. Recovery of components used for pollution abatement.
7. Recovery of components from catalysts.
8. Oil re-refining or other re-uses of oil.
9. Use of any waste principally as a fuel or other means to generate energy.
10. The treatment of any waste on land with a consequential benefit for an agricultural activity or ecological system.
11. Use of waste obtained from any activity referred to in a preceding paragraph of this Schedule.
12. Exchange of waste for submission to any activity referred to in a preceding paragraph of this Schedule.
13. Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced.

Waste Licence Application re: Midland Waste Disposal Company Limited at Clonmagaddan, Proudstown, Navan, Co. Meath

Dear Mr. Gilheaney,

I am to inform you in accordance with Article 18(3) of the Waste Management (Licensing) Regulations, that additional information relevant to the EIS has been received by the Agency on 20/07/05. A copy of the additional information is enclosed for your information.

I am to advise you that any person may make a submission to the Agency, in writing, in respect of the application, pursuant to Article 15 of the relevant Waste Management (Licensing) Regulations, which provides as follows:

Extract from the Waste Management (Licensing) Regulations

Submissions to the Agency regarding applications.

15. For the purpose of Section 40(2)(b) of the Acts, a person may make a written submission to the Agency in relation to -
- (i) an application, and
  - (ii) such plans, documents and other information and particulars, including an environmental impact statement, as are submitted by the applicant in accordance with Articles 12, 13, 14 and 16,
- and the Agency shall not give notice of a proposed decision under Section 42(2) of the Acts before the expiry of a period of one month following the date of a relevant -
- (a) acknowledgement in accordance with Article 14(2)(a), or
  - (b) notice in accordance with Article 16(2)(a), or
  - (c) acknowledgement in accordance with Article 16(4),
- whichever such date is the later.

The Agency will have regard to any submission made in accordance with the Regulations and will write, in due course, to each person who makes such a submission, to advise them of the Agency's proposed decision on the application.

Yours sincerely

Reg. No. 131-2

Re: Notice in accordance with Article 14(2)(b)(ii) of the Waste Management (Licensing) Regulations

Dear Mr Flynn,

I am to refer to the above referenced application for a waste licence relating to a facility at Midland Waste Disposal Limited, Clonmagaddan, Proudstown, Navan, Co. Meath. Having examined the documentation submitted, I am to advise that the Agency is of the view that the documentation does not comply with Article 12 and Article 13 of the Waste Management (Licensing) Regulations.

You are therefore requested, in accordance with Article 14(2)(b)(ii) of the regulations, to take the steps and supply the information detailed below:

**ARTICLE 12 COMPLIANCE REQUIREMENTS**

1. Confirm the name of the Sanitary Authority to whom foul water is discharged. Provide details in relation to the quantity of foul effluent generated, level and rate of emissions arising from the activity, source of the foul water and quality analysis, and where relevant the period or periods during which such emissions are made. Provide details of the foul water storage provided on-site.
2. Provide the following further information in relation to the VCU Composting Unit:
  - Clarify the feedstock material to the Unit and identify the appropriate categories of waste under EWC;
  - Outline the cleaning procedures relating to the composting unit;
  - Clarify the particle size of feed material;
  - Describe the procedure for removal and storage of processed material;
  - Describe the practices to be undertaken to avoid cross contamination of raw and processed material;

- Outline proposals for sampling of composted material;
- Identify the proposed use of composted material;

Clarify if you propose to pass the composted material through the trommel also used for municipal waste prior to dispatch of compost off site.

3. Describe the current processing of mixed municipal waste undertaken on-site and the proposed processing to be undertaken when the VCU composting unit is operational.
4. Clarify that the Best Available Techniques for a waste transfer station will be used to prevent or eliminate, or where that is not practicable, to limit, abate or reduce an emission from the activity.
5. Clarify that the activity is consistent with the objectives of the relevant waste management plan.
6. Clarify that energy will be used efficiently in the carrying on of the activity.
7. Identify on a suitable scaled map (A3 maximum) the proposed monitoring point for the surface water collection system and provide a detailed scaled map (A3 maximum) showing the separation of clean and dirty water at the northern end of the Recycling Plant.
8. Provide a summary and interpretation of the results for dust, noise, surface water discharges, groundwater and gas monitoring results.
9. Describe any proposed arrangements for the prevention, minimisation and recovery of waste arising from the activity.
10. Clarify in relation to emission to the aquifer if they give rise or could give rise to an emission containing the List I and II substances specified in the Annex to Council Directive 80/68/EEC of 17 December 1979, describe the existing or proposed arrangements necessary to give effect to Articles 3,4,5,6,7,8,9 and 10 of the aforementioned Council Directive.
11. Provide on a suitable scaled map (maximum size A3) the location of the groundwater supply well on the Kilsaran site.
12. Complete the relevant tables E.1(i) to E.1(v) as relevant from the Integrated Pollution Prevention and Control Licensing Application Form (available on [www.epa.ie](http://www.epa.ie)) in respect of the on-site generator and any other air emissions from the facility.

13. Clarify the number of waste containers (full) which you are seeking to park on site overnight prior to movement to waste disposal/recovery facilities.
14. Address potential bio-aerosol emissions associated with the VCU Composting Unit.
15. Clarify the results and interpretation of the odour survey (December 2004) which indicates odour concentrations of up to 185ou/m<sup>3</sup>.
16. Clarify if planning permission is required for the proposed development, increased waste throughput and extended hours of operation.
17. Provide details of the quantity and quality of the material to be excavated from the site to facilitate expansion of the yard area. Provide details of your proposals for the disposal/recovery of this excavated material and proposed examination and classification of this material prior to removal off-site.

#### **ARTICLE 13 COMPLIANCE REQUIREMENTS**

1. Provide details in relation to the quantity of foul effluent generated, level and rate of emissions arising from the activity, source of the foul water and quality analysis, and where relevant the period or periods during which such emissions are made. Provide details of the foul water storage provided on-site.
2. Assess the impact of the foul water discharge to the Sanitary Authority Sewer.
3. Provide an estimation of the raw and ancillary materials, substances, preparations, fuels and energy that will be utilised in or produced by the activity at a throughput of 95,000 tonnes per annum, including operation of the generator.
4. It is noted that it is predicted that noise level at the noise sensitive location are 50dBA. Provide an assessment of the impact of extending the hours of operation and confirm compliance with the night time noise limit of 45dB(A). delete above
5. Present the data necessary to assess the main effects the development is likely to have on material assets, the likely significant effects and measures envisaged to avoid, reduce and if possible remedy significant effects on material assets.

6. Provided estimated types and quantities of expected residues and emissions resulting from the proposed development including pollutants of surface water, groundwater, air, soil and substrata and noise.
7. Identify significant likely direct effects on the environment resulting from use of natural resources (including generator).
8. Identify any difficulties such as technical difficulties or lack of knowledge encountered in compiling required information.

Your reply to this notice should include a revised non-technical summary (Application Form and EIS) which reflects the information you supply in compliance with the notice, insofar as that information impinges on the non-technical summary.

In the case where any drawings already submitted are subject to revision consequent on this request, a revised drawing should be prepared in each case. It is not sufficient to annotate the original drawing with a textual correction. Where such revised drawings are submitted, provide a list of drawing titles, drawing numbers and revision status, which correlates the revised drawings with the superseded versions.

Please supply the information in the form of a one original plus two copies within six weeks of the date of this notice. In addition submit sixteen copies of the requested information to the Agency in electronic searchable PDF format on CD-ROM.

Please note that the application's register number is Reg. No. 131-2. Please direct all correspondence in relation to this matter to the *Licensing Unit, Office of Licensing & Guidance, Environmental Protection Agency, Headquarters, PO Box 3000, Johnstown Castle Estate, County Wexford* quoting the register number.

Yours sincerely,

**Patrick Byrne**  
Inspector  
Office of Licensing & Guidance
