Proposed Composting Facility at Pass of Kilbride, County Westmeath

ENVIRONMENTAL IMPACT STATEMENT
July 2004

Contents

Chapter

- 1 Introduction
- 2 Planning & Development Context
- 3 Needs & Alternatives
- 4 Project Description
- 5 Human Beings
- 6 Air Quality
- 7 Climate
- 8 Noise
- 9 Traffic
- 10 Surface Water
- 11 Geology and Hydrogeology
- 12 Landscape and Visual
- 13 Soils and Agriculture
- 14 Flora and Fauna
- 15 Cultural Heritage
- 16 Material Assets
- 17 Interactions

Appendices

- 5.1 Newsletter
- 6.1 Bioaerosol Risk Assessment: Dispersion Modelling Methodology And Assumptions
- 8.1 Noise Predictions
- 9.1 Traffic Assessment Photographs
- 9.2 Automatic Traffic Counts
- 9.3 PICADY Programme Outputs
- 10.1 Surface Water Catchment Calculations
- 10.2 Chemical & Biological Water Quality in the Vicinity of Kilbride
- 10.3 Water Sampling Protocol
- 10.4 Surface Water: Analytical Results
- 11.1 Trial Pit Logs
- 11.2 Boreholes Logs
- 11.3 Boreholes and Trial Pit Testing Schedules and Results
- 11.4 GSI Quaternary Information
- 11.5 GSI Aquifer Classification
- 11.6 GSI Well Database Search Results
- 11.7 Groundwater Analytical Results
- 14.1 Floral Species List
- 15.1 Archaeological Sites and Monuments in a c. 1.5 km Catchment
- 15.2 Summary of Legislation Governing the Protection of Cultural Heritage in Ireland
