Re: Killarney Waste Disposal Ltd – Waste Licence Application

Dear Sir/Madam,

We refer to the above application for a Waste Licence for Killarney Waste Disposal and to EPA correspondence dated 13th April 2005 requesting additional information in accordance with Article 14(2)(b)(ii) of the Waste Management (Licensing) Regulations.

We now enclose 1 no. original and 3 no. copies and 1 no. CD-ROM copy of the Article 12 Compliance Requirements in this regard as requested by the Agency.

We also attach a cheque from Killarney Waste Disposal in the sum of €2,000 as an additional payment to the application fee previously submitted to the Agency.

We are providing this information on behalf of Killarney Waste Disposal.

We trust this is satisfactory, but please do not hesitate to contact the undersigned if you have any queries.

Yours sincerely,

Siobhan Aherne
Senior Project Scientist
For and on behalf of RPS-MCOS Ltd.

INTRODUCTION

A valid application must contain the information prescribed in the Waste Management (Licensing) Regulations 2004 (SI No. 395 of 2004). The application should conform to the format set out in this application form and the relevant *Guidance Note*. Each page of the completed application form must be numbered, e.g. **page 5 of 45**, etc. **Wherever possible, information should be supplied in the spaces given in the application form. Additional information can be included in clearly identifiable, numbered attachments, which should be cross-referenced with the relevant sections in the application form. A contents list should be included with each volume.** The applicant should refer to the *Guidance Note* in order to ensure that the application includes all the information required. Consistent measurement units must be used throughout.

It should be noted that it will not be possible to process or determine the application until the required documents have been provided in sufficient detail and to a satisfactory standard.

For inspection purposes only.
Consent of copyright owner required for any other use.

CHECKLIST

Articles 12 and 13 of the Waste Management (Licensing) Regulations, 2004 (S.I. No. 395 of 2004) set out the information which must, in all cases, accompany a waste licence application. In order to ensure that the application fully complies with the legal requirements of Articles 12 and 13 of the 2004 Regulations, all applicants should **complete** the following.

In each case, refer to the attachment number(s) of your application which contain(s) the information requested in the appropriate sub-article.

Article 12(1) In the case of an application for a waste licence, the application shall -

- (a) give the name, address and, where applicable, any telephone number and telefax of the applicant (and, if different, the operator of the facility concerned), the address to which correspondence relating to the application should be sent and, if the applicant or operator is a body corporate, the address of its registered office or principal office,

LOCATION	Section B1		
CHECKED	Applicant	<input checked="" type="checkbox"/>	Official <input type="checkbox"/>

- (b) give the name of the planning authority in whose functional area the relevant activity is or will be carried on,

LOCATION	Section B3		
CHECKED	Applicant	<input checked="" type="checkbox"/>	Official <input type="checkbox"/>

- (c) in the case of a discharge of any trade effluent or other matter (other than domestic sewage or storm water) to a sewer of a sanitary authority, give the name of the sanitary authority in which the sewer is vested or by which it is controlled,

LOCATION	Section B4		
CHECKED	Applicant	<input checked="" type="checkbox"/>	Official <input type="checkbox"/>

- (d) give the location or postal address (including where appropriate, the name of the townland or townlands) and the National Grid reference of the facility or premises to which the application relates,

LOCATION	Section B2		
CHECKED	Applicant	<input checked="" type="checkbox"/>	Official <input type="checkbox"/>

- (e) describe the nature of the facility or premises concerned, including the proposed capacity of the facility or premises, and in the case of application in respect of a landfill of waste, the requirements specified in Annex 1 of the Landfill Directive,

WASTE Application Form

LOCATION	Section B7, D2 and H	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(f) specify the class or classes of activity concerned, in accordance with the Third and Fourth Schedules of the Act, and in the case of an application in respect of the landfill of waste, specify the class of landfill in accordance with Article 4 of the Landfill Directive,

LOCATION	Section B7	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(g) specify, by reference to the relevant European Waste Catalogue codes as presented by Commission Decision 2000/532/EC of 3 May 2000, the quantity and nature of the waste or wastes which will be treated, recovered or disposed of,

LOCATION	Section H	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(h) specify the raw and ancillary materials, substances, preparations, fuels and energy which will be utilised in or produced by the activity,

LOCATION	Section G	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(i) describe the plant, methods, processes, ancillary processes, abatement, recovery and treatment systems and operating procedures for the activity,

LOCATION	Section D2	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(j) provide information for the purpose of enabling the Agency to make a determination in relation to the matters specified in paragraphs (a) to (g) of section 40(4) of the Act,

LOCATION	Section L2	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

WASTE Application Form

(k) give particulars of the source, location, nature, composition, quantity, level and rate of emissions arising from the activity and, where relevant, the period or periods during which such emissions are made or are to be made,

LOCATION	Section E	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(l) give details, and an assessment of the effects, of any existing or proposed emissions on the environment, including any environmental medium other than those into which the emissions are, or are to be made, and of proposed measures to prevent or eliminate or, where that is not practicable, to limit or abate such emissions,

LOCATION	Section F	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(m) identify monitoring and sampling points and indicate proposed arrangements for the monitoring of emissions and the environmental consequences of any such emissions,

LOCATION	Section F	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(n) describe any proposed arrangements for the prevention, minimisation and recovery of waste arising from the activity concerned,

LOCATION	Section H	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(o) describe any proposed arrangements for the off-site treatment or disposal of solid or liquid wastes,

LOCATION	Section F and H4	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(p) describe the existing or proposed measures, including emergency procedures, to prevent unauthorised or unexpected emissions and minimise the impact on the environment of any such emission,

LOCATION	Section J	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

WASTE Application Form

(q) describe the proposed measures for the closure, restoration, remediation or aftercare of the facility concerned, after the cessation of the activity in question,

LOCATION	Section K	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(r) in the case of an application in respect of the landfilling of waste, give particulars of –

(i) such financial provision as is proposed to be made by the applicant, having regard to the provisions of Articles (7)(i) and (8)(a)(iv) of the Landfill Directive and section 53(1) of the Act, and

LOCATION	Non Applicable	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(ii) such charges as are proposed or made, having regard to the requirements of section 53A of the Act.

LOCATION	Non Applicable	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(s) state whether the activity is for the purposes of an establishment to which the European Communities (Control of Major Accident Hazards involving Dangerous Substances) Regulations, 2000 (S.I. No. 476 of 2000) apply,

LOCATION	Section B8	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

(t) in the case of an activity which gives rise or could give rise to an emission into an aquifer containing the List I and II substances specified in the Annex to Council Directive 80/68/EEC of 17 December 1979, describe the existing or proposed arrangements necessary to give effect to Articles 3,4,5,6,7,8,9 and 10 of the aforementioned Council Directive,

LOCATION	Attachment E4	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

Article 13 (6)

Notwithstanding the requirements of sub-articles (1) and (2), all or part of 3 copies of the environmental impact statement may, with the agreement of the Agency, be submitted in a computer or other non-legible format specified by the Agency.

CD version PROVIDED? Y/N	Y	
CHECKED	Applicant <input checked="" type="checkbox"/>	Official <input type="checkbox"/>

For inspection purposes only.
Consent of copyright owner required for any other use.

PROCEDURES

It is recommended that pre-application consultations with the Agency are undertaken before a formal submission of the waste licence application.

The procedure for making and processing of applications for waste licences, and for the processing of reviews of such licences, appear in the Waste Management (Licensing) Regulations 2004 (S.I. No.395 of 2004) and are summarised below. The application fees that shall accompany an application are listed in the Second Schedule to the Regulations.

Prior to submitting an application the applicant must publish in a local newspaper, and erect on site, a notice of intention to apply. An applicant, other than a local authority in whose functional area the development is located, must also notify the Local Planning Authority, in writing, of their intention to apply.

An application for a licence must be submitted on the appropriate form (available from the Agency) with the correct fee, and should contain relevant supporting documentation as attachments. The application should be based on responses to the form, supporting written text and the appropriate use of tables and drawings. Where point source emissions occur, a system of unique reference numbers should be used to denote each emission point. These should be simple, logical, and traceable throughout the application.

The application form is divided into a number of sections of related information. The purpose of these divisions being to facilitate both the applicant and the Agency in the provision of the information and its assessment. Attachments should be clearly numbered, titled and paginated and must contain the required information as set out in the application form. Additional attachments may be included to supply any further information supporting the application. Any references made should be supported by a bibliography.

All questions should be answered. No waste management facility is exactly the same and hence each application will require different information. It is therefore possible that some of the sections of this application form may not be relevant to the activity concerned. **Where information is requested in the application form, which is not relevant to the application, the words "not applicable" should be clearly written on the form. The abbreviation "N/A" should not be used.**

Additional information may need to be submitted beyond that which is explicitly requested on this form. Any references made should be supported by a bibliography. The Agency may request further information if it considers that its provision is material to the assessment of the application. Advice should be sought from the Agency where there is doubt about the type of information required or the level of detail.

Information supplied in this application, including supporting documentation will be put on public display and be open to inspection by any person. **Should the applicant consider information to be confidential, then the nature of this information, and the reasons why it is considered confidential should be clearly stated in an**

attachment to the Application Form. This information should be submitted in a separate enclosure bearing the legend "In the event that this information is deemed not to be held as confidential, it must be returned to (representative of the applicant)".

Applicants should be aware that a contravention of the conditions of a waste licence is an offence under Section 39 of the Waste Management Acts 1996 to 2003.

The provision of information in an application for a waste licence which is false or misleading is an offence under Section 45 of the Waste Management Acts 1996 to 2003.

Note: Drawings. The following guidelines are included to assist applicants:

- All drawings submitted should be titled and dated.
- They should have a **unique reference number** and should be signed by a clearly identifiable person.
- They should indicate a scale and the **direction of north**.
- All drawings should, generally, be to a scale of between 1:20 to 1:500, depending upon the degree of detail needed to be shown and the size of the facility. Drawings delineating the boundary can be to a smaller scale of up to between 1:1000 to 1:10560, but must clearly and accurately present the required level of detail. Drawings showing the site location can be to a scale of between 1:50 000 to 1:126 720. Provide legends on all drawings and maps as appropriate.

Applicants must submit a signed original of the completed application, plus three copies (two copies where the application is by a local authority in respect of the carrying on of an activity located within the functional area of the authority)¹. In cases where an Environmental Impact Statement (EIS) is required then the Agency must be supplied with three copies of the EIS. In addition the applicant **must** submit one copy of the complete application on a CD-ROM, and eleven CD-ROM copies of the EIS to the Agency. The e-files should be saved as a 'pdf' file, read only status.

The provision of information in an application for a waste licence, which is false or misleading, is an offence under s45 of the Acts.

I HEREBY CERTIFY that a Statement of Particulars in Respect of the above Business Name pursuant to Section 4 of the above mentioned Act was registered on **24th January, 2003**

Dated this **24th January, 2003**

Person who has registered this business name :

KILLARNEY WASTE DISPOSAL LIMITED

Registrar of Business Names

Section 7 of the above Act requires that whenever a change is made or occurs in any of the particulars registered in respect of any person, that person shall, within one month after the change, furnish by sending by post or delivering to the registrar a statement in writing in the prescribed form specifying the nature and date of the change signed and where necessary verified in like manner as the statement required on registration.

Section 8 (2) provides that "a certificate of registration shall be kept exhibited in a conspicuous position at, in the case of a firm or individual, the principal place of business and, in the case of a body corporate, its registered or principal office in the State and, in every case, in every branch office or place where the business is normally carried on, and if not kept so exhibited, the person registered or, in the case of a firm, every partner in the firm shall be liable on summary conviction to a fine not exceeding £100."

Section 12 (1)---

"If a person registered under this Act in respect of a business name ceases to carry on business under that name, it shall be the duty of that person or, in the case of an individual who dies, of his personal representative or, in the case of a firm, of every person who was a partner in the firm at the time when it ceased to carry on business under that name, and also, in the case of a body corporate, of any liquidator, within three months thereafter to send by post or deliver to the registrar a statement in the prescribed form to that effect, and if he makes default in doing so he shall be liable on summary conviction to a fine not exceeding £100."

Forms of notification of change or cessation may be obtained from the
REGISTRAR OF BUSINESS NAMES, PARNELL HOUSE, 14 PARNELL SQUARE, DUBLIN 1.

PLANNING AND DEVELOPMENT ACT 2000 AND 2001
NOTIFICATION OF DECISION TO GRANT PERMISSION (SUBJECT TO CONDITIONS)
UNDER SECTION 34 OF THE ACT
KERRY COUNTY COUNCIL

Ref. No. in
Planning Register: 2131/04

Applicant: Sean Murphy, Aghacurreen, Killarney
Agent: Paudie O'Mahony & Assoc., Grosvenor Court, Upper High St., Killarney

Documents Recd.: 27/5/2004, 30/8/2004 and 27/10/2004

In pursuance of the powers, conferred upon them by the above named Acts, Kerry County Council have by Order dated **23rd November, 2004** decided for the reasons set out in the first schedule to grant a permission for the development of land namely:-

In respect of the construction of an extension to existing material recovery facility at Aghacurreen, Killarney, as outlined in plans and particulars received on 27/5/2004 and further information received on 30/8/2004 and 27/10/2004

SUBJECT to the conditions set out in the Second Schedule hereto. (Fourteen Conditions)

If there is no appeal against the said decision, a grant of permission in accordance with the decision will be issued as soon as possible after the expiration of the period of four weeks (see footnote).

It should be noted that until a Grant of Permission has been issued the development in question is **NOT AUTHORISED.**

SIGNED ON BEHALF OF
THE SAID COUNCIL:

A.O. Planning

DATE: **23rd November, 2004**

SCHEDULE (1)

Having regard to the scale of the proposed extension and its relationship with the existing development, it is considered that, subject to compliance with the Conditions set out in the Second Schedule, the proposed development would not seriously injure the visual amenities of the area and would not be contrary to the proper planning and sustainable development of the area.

NOTE: An Appeal against a decision of a Planning Authority under Section 34 or Section 35 of the Act of 2000 may be made to An Bord Pleanala within *four weeks* beginning on the date of the making of the decision by the Planning Authority. *An Appeal to An Bord Pleanala will be invalid unless it is accompanied by the appropriate fee. (Please refer to the attached guide for fees payable to An Bord Pleanala).* Appeals should be addressed to: *An Bord Pleanala, 64 Marlborough Street, Dublin 1.* An appeal by the applicant for permission should be accompanied by this form. In the case of an appeal by any other person, the name of the applicant, particulars of the proposed development or structure proposed to be retained and the date of the decision of the Planning Authority should be stated. The acknowledgement of receipt of a valid submission/objection as issued by the Planning Authority should also be submitted with the appeal.

PLANNING AND DEVELOPMENT ACT 2000 AND 2001

Reference No. n
 Planning Reg. 1131/04

SCHEDULE (2)***Planning Permission for the construction of an extension to existing material recovery facility***

The development shall be carried out entirely in accordance with the plans and particulars submitted to the Planning Authority on 27/05/2004 and revised on 30/08/04 and 27/10/04 except for any alterations or modifications specified in this decision

Reason: In the interests of visual amenity.

2. All external finishes shall be neutral in tone, colour and texture.

Reason: In the interests of visual amenity.

3. The roof of the proposed extension shall match that of the existing structure in design, colour and texture of the covering material. The colour of the roof shall be limited to grey.

Reason: In the interests of visual amenity.

4. The external finish of the proposed extension shall match the finish of the existing building.

Reason: In the interests of visual amenity.

5. The applicant shall submit a sample of the proposed metal cladding panels to the Planning Authority for approval prior to commencement of development.

Reason: In the interests of visual amenity.

6. Activities on site shall comprise of storage and sorting of materials incidental to the waste recovery facility. This shall exclude manufacturing of final products.

Reason: In the interests of residential amenity.

7. All effluent from the proposed extension shall discharge to the existing septic tank and percolation and shall not pollute any river, stream or aquifer.

Reason: To safeguard public health.

8. Building for storage and sorting of waste must be enclosed and have doors capable of being closed. No finished materials or materials waiting to be processed shall be stored outside.

Reason: To safeguard public health.

9. All roof water shall be collected and diverted to surface waters.

Reason: To safeguard public health.

PLANNING AND DEVELOPMENT ACT 2000 AND 2001

Reference No. in
Planning Reg. 2131/04

10. Any contaminated water as a result of activities at the facility shall be collected and passed through an oil interceptor. The contaminated water shall then receive treatment in a reed-bed treatment plant constructed in accordance with a design agreed with Environment Section. **Details shall be submitted within 4 weeks from the date of this permission**

Reason: To safeguard public health.

11. Foul water or effluent collected from waste within the building shall be collected in the existing underground effluent tank. This effluent shall be treated off-site in the Killarney Wastewater treatment Plant or other treatment plant approved by the Council.

Reason: To safeguard public health.

12. The site shall be landscaped in accordance with a Landscaping plan received on 27/10 04 except for any alterations or modifications specified in this decision. **Details of boundary fencing shall be agreed with the Local Authority prior to constructing it. The landscape plan must address screening along the north western boundary to the satisfaction of the local authority. An amended plan must be submitted within 4 weeks from the date of this permission.**

Reason: In the interests of visual amenity.

13. The applicant shall employ a suitably qualified archaeologist, licensed under the National Monuments Act (1930 – 1994), to carry out pre- development testing at the site and monitor all ground work's associated with the development. Pre – development testing shall consist of the following:
- (i) No sub- surface work shall be undertaken in the absence of the archaeologist without his/ her express consent.
 - (ii) The archaeologist is required to notify Duchas in writing at least four weeks prior to the commencement of site preparations. This will allow the archaeologist sufficient time to obtain a licence to carry out the work.
 - (iii) The archaeologist shall carry out any relevant documentary research and may excavate test trenches at locations chosen by the archaeologist, having consulted the proposed development plans.
 - (iv) Having completed the work, the archaeologist shall submit a written report to the Planning Authority and Duchas.
 - (v) Where archaeological material is shown to be present, avoidance, preservation in situ, preservation by record (excavation) and / or monitoring may be required. Duchas the Heritage Service will advise the Applicant / Developer with regard to these matters.
 - (vi) No site preparation or construction work shall be carried out until after the archaeologist's report has been submitted and permission to proceed has been received in writing from the Duchas.
 - (vii) Should archaeological material be found during the course of monitoring, the archaeologist may have work on the site stopped, pending a decision as to how best to deal with the archaeology, (e.g. preservation in situ, or excavation). The developer should be prepared to be advised by the National Monuments Service with regard to any mitigating action (e.g. preservation in situ, or excavation) and shall facilitate the archaeologist in recording any material found.
 - (viii) The National Monuments Service shall be furnished with a report on the results of the monitoring.

Reason: In the interests of heritage preservation.

PAGE 05/05

PLANNING AND DEVELOPMENT ACT 2000 AND 2001

Reference No. in
Planning Reg. 2131/04

14. Prior to the commencement of development, the developer shall pay a contribution of EUR 37,575 Kerry County Council (Planning Authority) in respect of public infrastructure and facilities benefiting the proposed development, as a special contribution within the meaning of Section 48 (2) (C) of the Planning & Development Act, 2000 towards the cost of implementation of the following schedule of works:-

<u>Proposed Infrastructure and Facilities</u>	<u>Estimated Cost</u>
1. Overlay of junction accessing development from Local Road L7037.	EUR 7,500
2. Widening and strengthening of junction of Local Road L7037 with Local Road L2019 to allow for adequate HGV turning circles.	EUR 9,950
3. Overlay of junction of Local Road L7037 with Local Road L2019.	EUR 8,525
4. Overlay of segments of Local Road L7037 to facilitate additional HGV traffic.	EUR 11,600

This condition replaces Condition No. 14 and 15 of Grant of Permission for existing development under Planning Reg. 03/337.

Reason: It is considered appropriate that the Developer should contribute towards the cost of public infrastructure and facilities benefiting the development, in accordance with the provisions of Section 48 of the Planning and Development Act, 2000.

WASTE MANAGEMENT ACTS, 1996 - 2003
Waste Permit

Decision of the Local Authority, under Article 5(1) of the Waste Management (Permit) Regulations 1998.

Waste Permit Register No: WP23/03

Kerry County Council in exercise of the powers conferred on it by the Waste Management Acts 1996 to 2003 hereby grants this waste permit to Killarney Waste Disposal, Aughacureen, Killarney, Co Kerry to carry on the activities set out below at Aughacureen, Killarney, Co. Kerry subject to 10 No. conditions, set out in the schedules attached hereto.

Permitted Waste Activities

Waste Disposal Activities, in accordance with the Third Schedule of the Waste Management Acts, 1996 – 2003:

Class 12: Repackaging prior to submission to any activity referred to in a preceding paragraph of this Schedule; This activity is limited to the re-packaging of waste arising incidental to the recycling activities.

Class 13: Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced;
This activity is limited to the storage of waste arising incidental to the main recycling activities.

Waste Recovery Activities, in accordance with the Fourth Schedule of the Waste Management Act, 1996:

Class 2: Recycling or reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes);
This activity is limited to the recycling or reclamation of organic waste by shredding, sorting, sieving or de-contaminating.

Class 3. Recycling or reclamation of metals and metal compounds.
This activity is limited to the recycling or reclamation of metals by shredding, sorting, sieving or crushing.

Class 4. Recycling or reclamation of other inorganic materials.
This activity is limited to the recycling or reclamation of inorganic materials by shredding, sorting, sieving or de-contaminating.

Class 11. Use of waste obtained from any activity referred to in a preceding paragraph of this Schedule.

This activity is limited to the packaging of waste by baling, wrapping, placing in containers or trailers prior to submission to a recycling facility.

Class 12 Exchange of waste for submission to any activity referred to in a preceding paragraph of this schedule.

This activity is limited to the exchange of recyclable wastes.

Class 13: Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced.

This activity is limited to the short term storage of recyclable waste at the facility.

Signed on behalf of the said Council:

Senior Engineer,
Environmental Services

Introduction

Waste Permit Ref No WP 23/03

Introduction. This introduction is a non-technical summary of the Waste Permit. This is not a legal interpretation of the permit nor does it form part of the permit.

This permit is granted to Killarney Waste Disposal to operate a waste recycling facility at their premises at Aughacureen, Killarney, Co Kerry. Loose waste accepted at the facility such as cardboard, paper, plastic, mixed municipal waste, etc is tipped onto the floor of the recycling building for subsequent processing. The processing carried out includes sorting, shredding, sieving, baling and repackaging. Hazardous waste, liquid waste or animal waste are not accepted at the facility. This permit granted by Kerry County Council places conditions on the operations at the facility to ensure environmental impacts are minimised.

Waste is brought onto site by means of refuse truck, container, open or closed skip, van or car and trailer. Open vehicles should have suitable netting to prevent windblown litter. Waste is examined on delivery and details in relation to source and nature of the waste is recorded. Waste should normally be accepted on site only between 7a.m and 7p.m. Monday to Saturday inclusive. The permit limits the total amount of waste accepted at the site to 16,500 tonnes/annum.

The operations on site shall be carried on in such a manner that noise, odour and dust from the facility do not result in nuisance beyond the facility boundaries. Records of any complaints and remedial action taken shall be maintained at the facility.

The site and the public road adjacent thereto shall be kept free from litter. Regular inspections shall be carried out and baiting points maintained to prevent infestations of vermin and pests.

The gate to the facility and the door to the recycling shed shall be kept closed out of operating hours.

Before the 28th Feb each year summary information in regard to the previous year's activities at the facility shall be submitted to the County Council.

This permit shall be valid for a period of two years from the date of issue.

INTERPRETATION

Act	The Waste Management Acts 1996 -2003
BOD	5 day Biochemical Oxygen Demand.
COD	Chemical Oxygen Demand.
Commercial waste County Council	As defined in Section 5 (1) of the Waste Management Act 1996. Kerry County Council.
Containment boom	A boom which can contain spillages and prevent these from entering drains or watercourses.
Daytime	0800 hrs to 2200 hrs.
European Waste Catalogue (EWC)	The EWC is a harmonised, non-exhaustive list of wastes drawn up by 94/3/EC. It will be periodically reviewed and, if necessary, revised. The HWL(Hazardous Waste List) was published as Council Decision 94/904/EC. The wastes listed in the HWL are those wastes that appear in the EWC which have been deemed to be hazardous.
Household Waste	Household waste is waste produced within the curtilage of a building or self-contained part of a building used for the purposes of living accommodation.
Industrial waste	As defined in Section 5 (1) of the Waste Management Act, 1996.
Inert Waste	Waste that does not undergo any significant physical, chemical or biological transformations. Inert waste will not dissolve, burn or otherwise physically or chemically react, biodegrade or adversely affect other matter with which it comes into contact in a way likely to give rise to environmental pollution or harm human health. The total leachability and pollutant content of the waste and the ecotoxicity of the leachate must be insignificant, and in particular not endanger the quality of surface water and/or groundwater.
L(A)eq Permit	Equivalent continuous sound level. A Waste permit issued in accordance with the Waste Management Acts 1996 -2003
Litter	A substance or object, whether or not intended as waste (other than waste within the meaning of the Waste Management Act, 1996, which is properly consigned for disposal) that, when deposited in a place other than a litter receptacle or other place lawfully designated for the deposit, is likely to become unsightly, deleterious, nauseous or unsanitary, whether by itself or with any other such substance or object, and regardless of its size or volume or the extent of the deposit. [S.I. No. 12 of 1997, Litter Pollution Act, 1997]
Municipal Waste	Municipal waste as defined in Section 5 (1) of the Waste Management Act, 1996.
Maintain	Keep in a fit state, including such regular inspection, servicing and repair as may be necessary to adequately perform its function.
Night-time	2200 hrs to 0800 hrs.
Noise sensitive Location	Any dwelling house, hotel or hostel, health building, educational establishment, place of worship or entertainment, or any other facility or area of high amenity which for its proper enjoyment requires the absence of noise at nuisance levels.
Non hazardous waste	Non-Hazardous Waste is any waste which is not a hazardous waste as defined in Directive 91/689/EEC.
Odour	The (unpleasant) smell of a material or collection of materials.
Putrescible waste	Waste which is readily biodegradable such as vegetable matter, green waste, food waste,etc.

**Regulations
Recycling**

Waste Management (Permit) Regulations, 1998.(S.I. No 165 of 1998)
Waste recycling means the subjection of waste to any process or treatment to make it re-usable in whole or in part.

Sludge

An intimate mixture of solid and liquid.

Waste

Waste is any substance or object belonging to a category of waste specified in the *First Schedule* of the Act or for the time being included in the *European Waste Catalogue (EWC)* which the holder discards, or intends to or is required to discard, and anything which is discarded or otherwise dealt with as if it were a waste is presumed to be a waste unless the contrary is proved.

Working Day

07:00 to 20:00 Monday to Saturday inclusive.

For inspection purposes only.
Consent of copyright owner required for any other use.

CONDITION 1 SCOPE

- 1.1 The activities shall be restricted to the area shown on the Site Layout Plan, scale 1:1000 received on 21/3/03 except for any additional area, agreed by the Council, which may be required in order to comply with the conditions of this permit. Any such additional area shall be within the confines of the overall landholding outlined in blue on the map received on 25/3/03.
- 1.2 Hazardous waste shall not be accepted at the facility.
- 1.3 The activities shall be controlled, operated and maintained in accordance with the conditions attaching to this permit. All programmes and plans required to be carried out under the terms of this permit, become part of this permit.
- 1.4 This permit is for the purposes of waste permitting under the Waste Management Act 1996 only. The granting of this permit does not exempt the permit holder from complying with statutory obligations or requirements under the Planning Acts or any other enactment's or regulations.
- 1.6 Where Kerry County Council considers that a non-compliance with the conditions of this permit has occurred, it may serve a notice on the permit holder specifying:
(i) that only those wastes as specified, if any, in the notice are to be accepted at the facility after the date set down in the notice; and,
(ii) that the permit holder shall undertake the works stipulated in the notice, and/or otherwise comply with the requirements of the notice as set down therein, within the time-scale contained in the notice.
When the notice has been complied with, the permit holder shall provide written confirmation that the requirements of the notice have been attended to. No waste, other than that which is stipulated in the notice, shall be accepted at the facility until written confirmation is received from Kerry County Council that the notice is withdrawn.
- 1.7 This permit shall be valid for a period of 24 months from the date of issue.

CONDITION 2 MANAGEMENT OF THE ACTIVITY

- 2.1 Documentation
- 2.1.1 The Permit Holder shall implement the operating procedures outlined in Appendix B of the application received on 21/3/03, unless agreed otherwise by the Council. The procedures will be modified as necessary to comply with the conditions of this permit or where required by the Council.
- 2.2 Corrective Action
- 2.2.1 The permit holder shall establish and maintain within six months of the grant of this permit written Corrective Action Procedures to ensure that corrective action is taken should specified requirements to this permit not be fulfilled.
- 2.3 Awareness and Training
- 2.3.1 The permit holder shall ensure that all relevant personnel whose duties relate to any condition of this permit are aware of the operating procedures and the contents of this permit. A training programme shall be submitted to the Council within six months of the date of grant of this permit.

- 2.3 Responsibilities
- 2.3.1 Within three months of the date of grant of this permit , the permit holder shall submit details of the management structure for the facility, including the following information, for the agreement of the County Council:
- (i) the names of all persons who are to provide the management and supervision of the facility;
 - (ii) details of the responsibilities for each individual named under (i) above;
 - (iii) details of the relevant experience, competence of the persons nominated under (i) above; and,
 - (iv) contingency arrangement for the absences of the named persons from the facility.
- 2.4 Within three months of the date of grant of this permit the permit holder shall appoint a suitably qualified and experienced facility supervisor who shall be designated as the person in charge. The facility supervisor or a suitably qualified and experienced deputy, shall be present at all times during the operation of the facility.

CONDITION 3 NOTIFICATION AND RECORD KEEPING

- 3.1 The permit holder shall make written records of the following incidents:
- 3.1.1 any emission which does not comply with the requirements of this permit ;
 - 3.1.2 any occurrence with the potential for environmental pollution; and,
 - 3.1.3 any emergency.
- 3.2 The written record shall include the following:
- 3.2.1 date and time of the incident;
 - 3.2.2 a description of the incident;
 - 3.2.3 an evaluation of the environmental pollution, if any, caused by the incident;
 - 3.2.4 steps taken to minimise the emissions/malfunction;
 - 3.2.5 steps taken to avoid recurrence; and,
 - 3.2.6 any other remedial action undertaken.
- 3.3 Unless otherwise instructed in writing by the County Council, the permit holder shall notify the County Council by both telephone and in writing as soon as practicable after the occurrence of any of the incidences detailed in Condition 3.1..
- 3.4 In the event of any incident as set out in Condition 3.1 which relates to discharges to surface water, or which affects the interests of the Local Authority, the permit holder shall notify the South Western Regional Fishery Boards and/or the Sanitary Authority, as appropriate, as soon as practicable in writing.
- 3.5 The permit holder shall notify the Co. Council, in writing, within 7 days of
- i) the imposition of any requirement on Permit Holder by order under Sections 57 or 58 of the Waste Management Act 1996, or
 - ii) any conviction of the Permit Holder for an offence prescribed under section 34(5) or 40(7) of the Act.
- 3.6 Unless otherwise agreed in writing with the County Council, copies of all written records referred to in this permit shall be maintained in the facility office located on the site of the facility and shall be made available to the County Council at all reasonable times.
- 3.7 The following documents shall also be kept at the facility office:
- i) the current waste permit
 - ii) the previous waste permit
 - iii) all written procedures produced by the permit holder which relate to the permitted activities.
 - iv) the previous year's AER report.
- 3.8 A written record (or PC based capable of being printed) shall be maintained for each load of waste arriving at and being removed from the facility (including sludge or leachate

removed from facility) This applies to all waste entering the facility whether for compaction, reclamation, disposal or storage. The following shall be recorded:

- i) the time and date;
 - ii) the name of the carrier and vehicle registration number;
 - iii) the name of the producer(s)/collector(s) of the waste as appropriate.
 - iv) a description of the waste and EWC code;
 - v) the quantity of the waste recorded in tonnes.
 - vi) the name of the person checking the load; and,
 - vii) where loads are removed, the types of waste, EWC code and the facility to which they were removed shall be recorded.
 - viii) where loads or wastes are rejected, details of the date of occurrence, the types of waste and the facility to which they were removed shall be recorded
- 3.9 The permit holder shall maintain a record sheet which will record the individual waste streams which are removed from the facility. The record should show the estimated percentage of each waste stream.
- 3.10 The permit holder shall maintain a written record of all complaints of an environmental nature related to the operation of the activity. Each such record shall give details of the following:
- i) date and time of the complaint;
 - ii) the name of the complainant;
 - iii) details of the nature of the complaint;
 - iv) actions taken on foot of the complaint and the results of such actions; and,
 - v) the response made to each complainant.
- 3.11 The permit holder shall notify the Co. Council, in writing, of any significant changes in the information furnished to the Co. Council under article 10(r) of the Regulations, within 3 weeks of any such change arising.
- 3.12 Before the 28th day of February in each year the permit holder shall submit to the Local Authority an Annual Environmental Report (AER) for the preceding calendar year containing the information specified in Schedule A. The report due on 28/2/04 shall cover the full calendar year 2003 .

CONDITION 4 SITE INFRASTRUCTURE

- 4.1 **Site Security**
Gates and doors shall be kept shut when the facility is not operating unless agreed otherwise by the County Council.
- 4.2. A working telephone and facsimile machine shall be provided and maintained at the facility office.
- 4.3 **Treatment of contaminated water.**
- 4.3.1 .Within one month of the date of grant of this permit the permit holder shall submit, to the Council for agreement, proposals for the treatment of contaminated run-off water from the concrete yards used for storage, or handling of waste or other similar areas prescribed by the Council. The treatment system shall consist of a constructed wetland system to an approved design. Run-off/soiled water shall pass through a class 1 oil/water interceptor prior to discharge to the wetland system. These proposals shall include a time scale for implementation.
- 4.3.2 Run-off from car parking or truck parking area shall pass through a class 1 oil/water interceptor prior to discharge to the surface water drains.
- 4.3.3 Roof water shall be collected separately and piped directly to surface water drains. Roof water shall not be allowed to discharge onto contaminated yards.
- 4.3.4 Within one month of the date of grant of this permit the permit holder shall submit, to the Council for agreement, details of the construction of the septic tank and proposals for the treatment of effluent from this tank.

- 4.3.5 The Permit holder shall maintain an adequately sized effluent storage tank to store effluent from the waste processing shed. The Permit holder shall empty this effluent tank on a regular basis and dispose of the effluent at Killarney Waste Water treatment plant.
- 4.3.6 The Permit Holder shall provide evidence of a maintenance contract with a suitably qualified person/company for the servicing and maintenance of any foul water treatment system.
- 4.4 Within three months of the date of grant of this permit the permit holder shall submit, to the Council for agreement, proposals for the provision of an adequate storage area for wood waste.
- 4.5 The Permit holder shall maintain the site infrastructure consisting of yards, sheds, offices and equipment in good condition. The power generator shall be regularly maintained and shall not cause nuisances due to smoke, noise or leaks. Equipment for sorting, shredding and baling of waste shall be maintained in good mechanical order. Records shall be maintained of all servicing and maintenance work carried out on equipment.
- 4.6 The Permit holder shall ensure that the weighbridge is calibrated in accordance with manufacturers requirements. A copy of the calibration certificate shall be maintained at the facility office.
- 4.7 The Permit holder shall not store fuel oil or lubrication oil on site unless otherwise agreed by the Council. Fuels or lubricants shall only be stored within appropriate bunded areas.
- 4.8 The Permit holder shall provide dedicated skips or wheelie bins to separately store hazardous waste or non-recyclable waste which may be removed from waste which is being processed at the facility. These bins or skips shall be appropriately labeled. Hazardous waste shall be sent to an appropriate recycling/disposal facility.
- 4.9 If in the opinion of the Council, a nuisance is being caused, or likely to be caused, by the recycling activities being undertaken, the Permit Holder shall submit to the Council, for agreement, proposals for odour abatement measures. These measures shall include, if required, the installation of a mechanical air extraction system and associated bio-filter to treat foul air from the recycling shed.

CONDITION 5 WASTE ACCEPTANCE AND HANDLING

- 5.1 Hazardous waste, Liquid wastes, sludges or animal wastes shall not be accepted at the facility.
- 5.2 ~~The Permit Holder shall not accept waste which is ultimately destined to be submitted to a disposal facility. (as described in the Third Schedule Waste Management Act.)~~
- 5.3 Unless otherwise agreed by the County Council, the following wastes only shall be accepted at the facility for recovery; Cardboard and packaging waste, Paper, Plastic bottles or film, metals, timber, Glass, Construction & Demolition waste, Garden and soil waste and separately collected dry-recyclables. Mixed Municipal Waste and Organic waste shall only be accepted in accordance with conditions 5.4 and 5.5 respectively.
- 5.4 Mixed Municipal Waste.
- 5.4.1 Mixed Municipal Waste shall not be accepted at the facility until prior approval in writing is obtained by the Permit Holder from the Council.
- 5.4.2 Mixed Municipal Waste shall only be accepted at the facility for recycling/recovery activities.
- 5.4.3 The Permit Holder shall submit to the Council, for agreement, details of the recycling/recovery facilities to which it is proposed to submit the Mixed Municipal Waste or fractions thereof.
- 5.4.4 The Permit Holder shall submit to the Council, for agreement, details of the composting methods, facilities to be used to recycle the fine fraction (i.e. less than 35mm size material) and analysis of the final compost.
- 5.4.5 Mixed Municipal waste shall only be tipped out within the recycling shed. MMW shall be processed as soon as possible but in any case within 24 hours of the time it is accepted at the facility, unless specified otherwise by the Council.

- 5.4.6 All MMW shall be visually inspected when tipped onto the floor. Hazardous waste and non-recyclable waste shall be removed and placed in separate bins for appropriate disposal.
- 5.4.7 The fine fraction of the waste shall be loaded into trailer/bins within the recycling shed. The trailer/bins used shall be watertight and shall have appropriate waterproof covers.
- 5.4.8 The floor of the recycling shed shall be cleared of all loose MMW and organic waste at least once each day.
- 5.5 Organic Waste.
- 5.5.1 Organic Waste such as canteen waste or kitchen waste shall only be accepted for subsequent recycling.
- 5.5.2 The Permit Holder shall submit to the Council, for agreement, details of the recycling/recovery facilities to which it is proposed to submit the organic waste.
- 5.5.3 All Organic Waste shall be visually inspected when tipped onto the floor. Hazardous waste and non-recyclable waste shall be removed and placed in separate bins for appropriate disposal.
- 5.5.4 Organic waste shall be loaded into trailer/bins within the recycling shed. The trailer/bins used shall be watertight and shall have appropriate waterproof covers.
- 5.5.5 The floor of the recycling shed shall be cleared of all organic waste at least once per day.
- 5.6 All wastes removed off site shall only be transported by a contractor who holds a valid Waste Collection Permit.
- 5.7 Within one month of the date of issue of this permit a list of all facilities used to recycle or dispose of waste should be submitted to the Council for its agreement. This list should detail the type of waste sent to each facility and the Permit or Licence number of the facility. Any changes to the facilities used shall be notified in advance to the Council and shall not be used until agreement is obtained from the Council. Unless otherwise agreed with the Council, waste sent off-site for recovery or disposal shall only be conveyed to a licensed or permitted facility.
- 5.8 All loose waste such as Cardboard and packaging waste, Paper, Plastic bottles or film accepted at the facility shall only be deposited within the enclosed shed. Sorting of mixed waste from skips shall be carried out within the shed. If sorting of mixed C & D waste is to be carried out externally then a dedicated bay for the purpose shall be constructed. Netting shall be erected around the bay to prevent windblown litter.
- 5.9 The Permit Holder shall implement the Waste Acceptance procedure as submitted with the permit application dated 21/03/03. Each load of waste arriving at the facility shall be visually inspected. Any waste deemed unsuitable and/or in contravention of this Waste Permit shall be separated and stored pending removal off-site. Such waste should be disposed of (or recovered) at an appropriate alternative facility.
- 5.10 Unless agreed otherwise by the Council waste shall only be accepted between the hours of 07:00 to 19:00 Monday To Saturday inclusive. All activities on site should cease by 20.00.
- 5.11 The total quantities of waste accepted at the facility per annum shall not exceed the following amounts unless agreed otherwise in advance by the Council;
- i) C&D waste 4,000tonnes
 - ii) Mixed Municipal Waste 8,000 tonnes
 - iii) Kitchen/canteen type waste 1,000 tonnes
 - iv) Dry recyclable wastes 3,500.
- 5.11 Unless agreed otherwise by the Council, waste from outside the County shall not be accepted except for minor quantities collected by the Permit Holder's own vehicles from customers in adjoining areas.
- 5.12 The total quantities of waste stored at the facility shall not exceed 350 tonnes at any one time. unless agreed otherwise by the Council.
- 5.13 Waste shall be stored at locations and in a manner agreed with the Council.

CONDITION 6 ENVIRONMENTAL NUISANCES

- 6.1 Waste shall be processed and stored in a manner that does not cause environmental nuisances. Baled waste shall be stored indoors or under cover. Organic waste and the fine fraction of MMW shall be stored within watertight trailers and covered with suitable covers. If a particular batch of waste causes mal-odour problems it will be removed from the facility immediately.
- 6.2 The Permit Holder shall implement the Pest and Vermin Control Procedure and Litter Control Procedure as submitted with the permit application dated 21/03/03.
- 6.3 The permit holder shall, at a minimum of one week intervals, inspect for nuisances caused by vermin, Pests and odours. Written records shall be made of all inspections and any actions taken as a result of these inspections.
- 6.4 The road network in the vicinity of the facility shall be kept free from any debris caused by vehicles entering or leaving the facility. Any such debris or deposited materials shall be removed without delay.
- 6.3 Any waste placed on or in the vicinity of the facility, other than in accordance with the requirements of this permit, shall be removed by the permit holder immediately such waste is discovered and in any event by 10:00am of the next working day.
- 6.4 The permit holder shall ensure that all open-topped vehicles delivering waste to or removing waste from the facility are suitably netted or otherwise covered to prevent windblown litter or other nuisances.
- 6.5 The doors of the recycling shed shall be kept closed outside of working hours and during times of high wind.
- 6.6 In dry weather, site roads and any other areas used by vehicles shall be sprayed with water as and when required to minimise airborne dust nuisance. Sorting of C&D waste or shredding of waste will be carried out in such a manner as to minimise dust nuisance.
- 6.7 Within three months of the issue of this permit proposals shall be submitted to the Council to shred and store woodchip in a manner that does not cause dust nuisance.
- 6.8 The permit holder shall ensure that the activities shall be carried out in a manner such that odours, dust or noise do not result in significant impairment of, or significant interference with amenities or the environment beyond the facility boundary.
- 6.9 The permit holder shall ensure that the facility is maintained in a tidy state and roads, yards are kept clean.

CONDITION 7 EMISSIONS AND ENVIRONMENTAL IMPACTS

- 7.1 Noise.
- 7.1.1 Machine noise generated within the facility shall not give rise to noise nuisance beyond the facility boundaries.
- 7.1.2 Noise from the activity shall not give rise to sound pressure levels (Leq, 30 mins.) measured at the site boundary, at locations agreed with the Co. Council, which exceed the following limit values by more than 2dB(A). Day 55 dB(A) Night 45 dB(A).
- 7.1.3 There shall be no clearly audible tonal component in the noise emissions from the activity at the facility boundary.
- 7.2 Emissions to atmosphere.
The Permit Holder shall ensure that all operations on site shall be carried out in such a manner that air emissions including dust, and/or odours do not result in a significant impairment of or significant interference with amenities of the environment beyond the site boundary.
- 7.3 Emissions to surface water drains.
- 7.3.1 The permit holder shall discharge only the clear water from roofs or other uncontaminated surfaces direct to surface water drains.

- 7.3.2 Surface water run-off from contaminated surfaces or car parks shall be treated in accordance with Condition 4.3 prior to discharge.
- 7.3.3 There shall be no emission of foul water to surface water drains from this facility.

CONDITION 8 ENVIRONMENTAL MONITORING

- 8.1 Within six months of the grant of this permit the Permit Holder shall submit to the Council, for its agreement, a drawing showing the location of noise, dust, surface water, contaminated water and foul water monitoring points required by this permit. Changes to these points shall only be with the agreement of the Council.
- 8.2 The Permit Holder shall carry out noise monitoring at two locations, agreed by the Council, within six months following the installation of new equipment or when requested by the Council.
- 8.3 The Permit Holder shall carry out monitoring at the following locations on a six monthly basis ;
- i) surface water drain at two locations upstream and one downstream of the facility
 - ii) surface water run-off from contaminated surfaces prior to treatment
 - iii) surface water run-off from contaminated surfaces prior to discharge to surface water drain
 - iv) effluent emanating from the recycling shed
- These samples shall be analysed for the following parameters; Temperature, pH, Conductivity ammoniacal nitrogen, BOD, COD, S.S. and Oils, Fats and Grease or other parameters that may be required by the Council. Additionally surface waters shall be monitored for Dissolved Oxygen. The monitoring and analysis shall be carried out by persons appropriately qualified and approved by the Council. The location of the monitoring points shall be in accordance with the drawing specified in Condition 8.1.
- 8.4 The Permit Holder shall carry out a weekly visual inspection of surface water drains at all monitoring points. Weekly inspections of all oil interceptors, effluent tanks, foul water treatment systems shall also be carried out. A written record of these inspections will be maintained at the facility office.
- 8.5 If in the opinion of the Council a nuisance is being caused due to odours from the facility the Permit Holder shall carry out odour monitoring at locations to be agreed with the Council.

CONDITION 9 CONTINGENCY ARRANGEMENTS

- 9.1 Within six months of the date of grant of the permit the permit holder shall submit Emergency Response Procedures (ERP) to the Council for agreement. The ERP shall address any emergency situation which may originate on the facility and shall include an assessment of firewater risks and provision for minimising the effects of any emergency on the environment.
- 9.2 All significant spillages occurring at the facility shall be treated as an emergency and immediately cleaned up and dealt with so as to alleviate their effects.
- 9.3 The permit holder shall have in storage an adequate supply of containment booms and/or suitable absorbent material to contain and absorb any spillage at the facility. Once used the absorbent material shall be disposed of at an appropriate facility.
- 9.4 No waste shall be burned within the boundaries of the facility. A fire at the facility shall be treated as an emergency. Immediate action shall be taken to extinguish it and the appropriate authorities notified.
- 9.5 In the event of a complete breakdown of equipment or any other occurrence which results in the closure of the facility, any putrescible waste, arriving at or already collected at the facility shall be transferred to containers/trailers and removed directly to an appropriate facility. Such a breakdown event will be treated as an emergency and rectified as soon as possible.
- 9.6 In the event that any monitoring, sampling or observations indicate that an incident has, or may have, taken place, the Permit Holder shall immediately:

- a) identify the date, time and place of the incident. carry out an immediate investigation to identify the nature, source and cause of the incident and any emission
- b) isolate the source of the emission if any;
- c) evaluate the environmental pollution, if any, caused by the incident;
- d) notify the Council by telephone or fax;
- e) identify and execute measures to minimise the emissions/malfunction and the effects thereof; and
- f) provide a proposal to the Council for its agreement within one month of notification to the Council to
 - (i) identify and put in place measures to avoid reoccurrence of the incident; and
 - (ii) identify and put in place any other appropriate remedial action.

CONDITION 10 CHARGES AND FINANCIAL PROVISIONS

10.1 County Council Charges.

10.1.1 The Permit Holder shall pay to the Council an annual contribution of €9,300 (or such sum as the Council from time to time determines), to defray such costs as may be incurred by the Council in, inspecting, monitoring or otherwise performing any functions in relation to the activity concerned. The permit holder shall not later than January 31 of each year, pay this amount to the County Council.

10.2 In the event that the frequency or extent of monitoring or other functions carried out by the County Council needs to be increased due to non-compliance with the permit, and/or an incident occurring on or adjacent to the facility or associated with the facility, the permit holder shall contribute such sums as may be determined by the County Council to defraying its costs.

SCHEDULE A : CONTENT OF THE ANNUAL ENVIRONMENTAL REPORT

Reporting Period.

Waste activities carried out at the facility.

Quantity and Composition of waste received for disposal or recovery during the reporting period in the format prescribed by the Council.

Quantity and Composition of waste removed (including leachate) from the facility for disposal or recovery during the reporting period in the format prescribed by the Council.

Details of facilities used for recycling/disposal of waste, licence or permit no, and quantity sent to each facility.

Projections of the quantities to be accepted and percentages disposed and recycled/ recovered for the coming year.

Summary report on emissions (Certified results/data sheets to be attached as Appendices) including wastes from effluent tank and interceptor sumps.

Report on maintenance carried out on foul water treatment system during the reporting period.

Report on maintenance carried out on power generator during the reporting period.

Summary of results and interpretations of environmental monitoring, including a location plan of all monitoring locations.

Resource and energy consumption summary.

Report on development works undertaken during the reporting period, and a timescale for those proposed for the coming year.

Full title and a written summary of any procedures developed by the licensee in the year which relates to the facility operation.

Drum, tank and bund testing at least every third year.

Reported Incidents and Complaints summaries.

Details of training carried out for staff during the reporting period and training proposed for the coming year.

Any other items which may be specified by the Council.

B.7 Type of Waste Activity, Tonnages & Fees

B.7.1 Specify the class or classes of activity in Table B.7.1, in accordance with the Third Schedule or Fourth Schedule to the Waste Management Acts 1996 to 2003, to which the application relates (check the relevant box(es) and mark the principal activity with a 'P').

Attachment B.7 should identify the principle activity and include a brief technical description of each of the other activities specified. There can only be one principal activity.

TABLE B.7.1 THIRD AND FOURTH SCHEDULES OF THE WASTE MANAGEMENT ACTS 1996 TO 2003

Waste Management Acts 1996 to 2003					
THIRD SCHEDULE Waste Disposal Activities		Y/N	FOURTH SCHEDULE Waste Recovery Activities		Y/N
1. Deposit on, in or under land (including landfill).			1. Solvent reclamation or regeneration.		
2. Land treatment, including biodegradation of liquid or sludge discards in soils.			2. Recycling or reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes).		X
3. Deep injection of the soil, including injection of pumpable discards into wells, salt domes or naturally occurring repositories.			3. Recycling or reclamation of metals and metal compounds.		X
4. Surface impoundment, including placement of liquid or sludge discards into pits, ponds or lagoons.			4. Recycling or reclamation of other inorganic materials.		P
5. Specially engineered landfill, including placement into lined discrete cells which are capped and isolated from one another and the environment.			5. Regeneration of acids or bases.		
6. Biological treatment not referred to elsewhere in this Schedule which results in final compounds or mixtures which are disposed of by means of any activity referred to in paragraphs 1 to 5 or paragraphs 7 to 10 of this Schedule.			6. Recovery of components used for pollution abatement.		
7. Physico-chemical treatment not referred to elsewhere in this Schedule which results in final compounds or mixtures which are disposed of by means of any activity referred to in paragraphs 1 to 5 or paragraphs 8 to 10 of this Schedule (including evaporation, drying and calcination).			7. Recovery of components from catalysts.		
8. Incineration on land or at sea.			8. Oil re-refining or other re-uses of oil.		
9. Permanent storage, including emplacement of containers in a mine.			9. Use of any waste principally as a fuel or other means to generate energy.		
10. Release of waste into a water body (including a seabed insertion).			10. The treatment of any waste on land with a consequential benefit for an agricultural activity or ecological system.		
11. Blending or mixture prior to submission to any activity referred to in a preceding paragraph of this Schedule.	X		11. Use of waste obtained from any activity referred to in a preceding paragraph of this Schedule.		X
12. Repackaging prior to submission to any activity referred to in a preceding paragraph of this Schedule.	X		12. Exchange of waste for submission to any activity referred to in a preceding paragraph of this Schedule.		X
13. Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.	X		13. Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced. PUBLIC NOTICE

Application to the Environmental Protection Agency for a Waste Licence

Notice is hereby given in accordance with Articles 5 and 7 of the Waste Management (Licensing) Regulations 2004 (S.I. No. 395 of 2004) that **Killarney Waste Disposal Ltd., Aughacurreen, Killarney, Co. Kerry** are applying to the Environmental Protection Agency for a Waste Licence within two weeks of this date in respect of extending their existing Materials Recovery Facility located in the townland of Aughacurreen, Killarney, Co. Kerry - National Grid Reference as follows: 936,205E, 939,375N.

Killarney Waste Disposal Ltd. propose to extend their existing facility which currently operates under a Waste Permit from Kerry County Council and increase the annual intake to 40,000 tonnes per annum for non-hazardous waste.

The Classes of Waste Disposal and Recovery Activities applied for as per the Third and Fourth Schedules of the Waste Management Acts, 1996 to 2003 are as follows:

Third Schedule

Class 11 - Blending or mixture prior to submission to any activity referred to in a preceding paragraph of this Schedule.

Class 12 - Repackaging prior to submission to any activity referred to in a preceding paragraph of this Schedule.

Class 13 - Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.

Fourth Schedule

Class 2 - Recycling or reclamation of organic substances which are not used as solvents (including composting and other biological processes).

Class 3 - Recycling or reclamation of metals and metal compounds.

Class 4 - Recycling or reclamation of other inorganic materials.

Class 11 - Use of waste obtained from any activity referred to in a preceding paragraph of this Schedule.

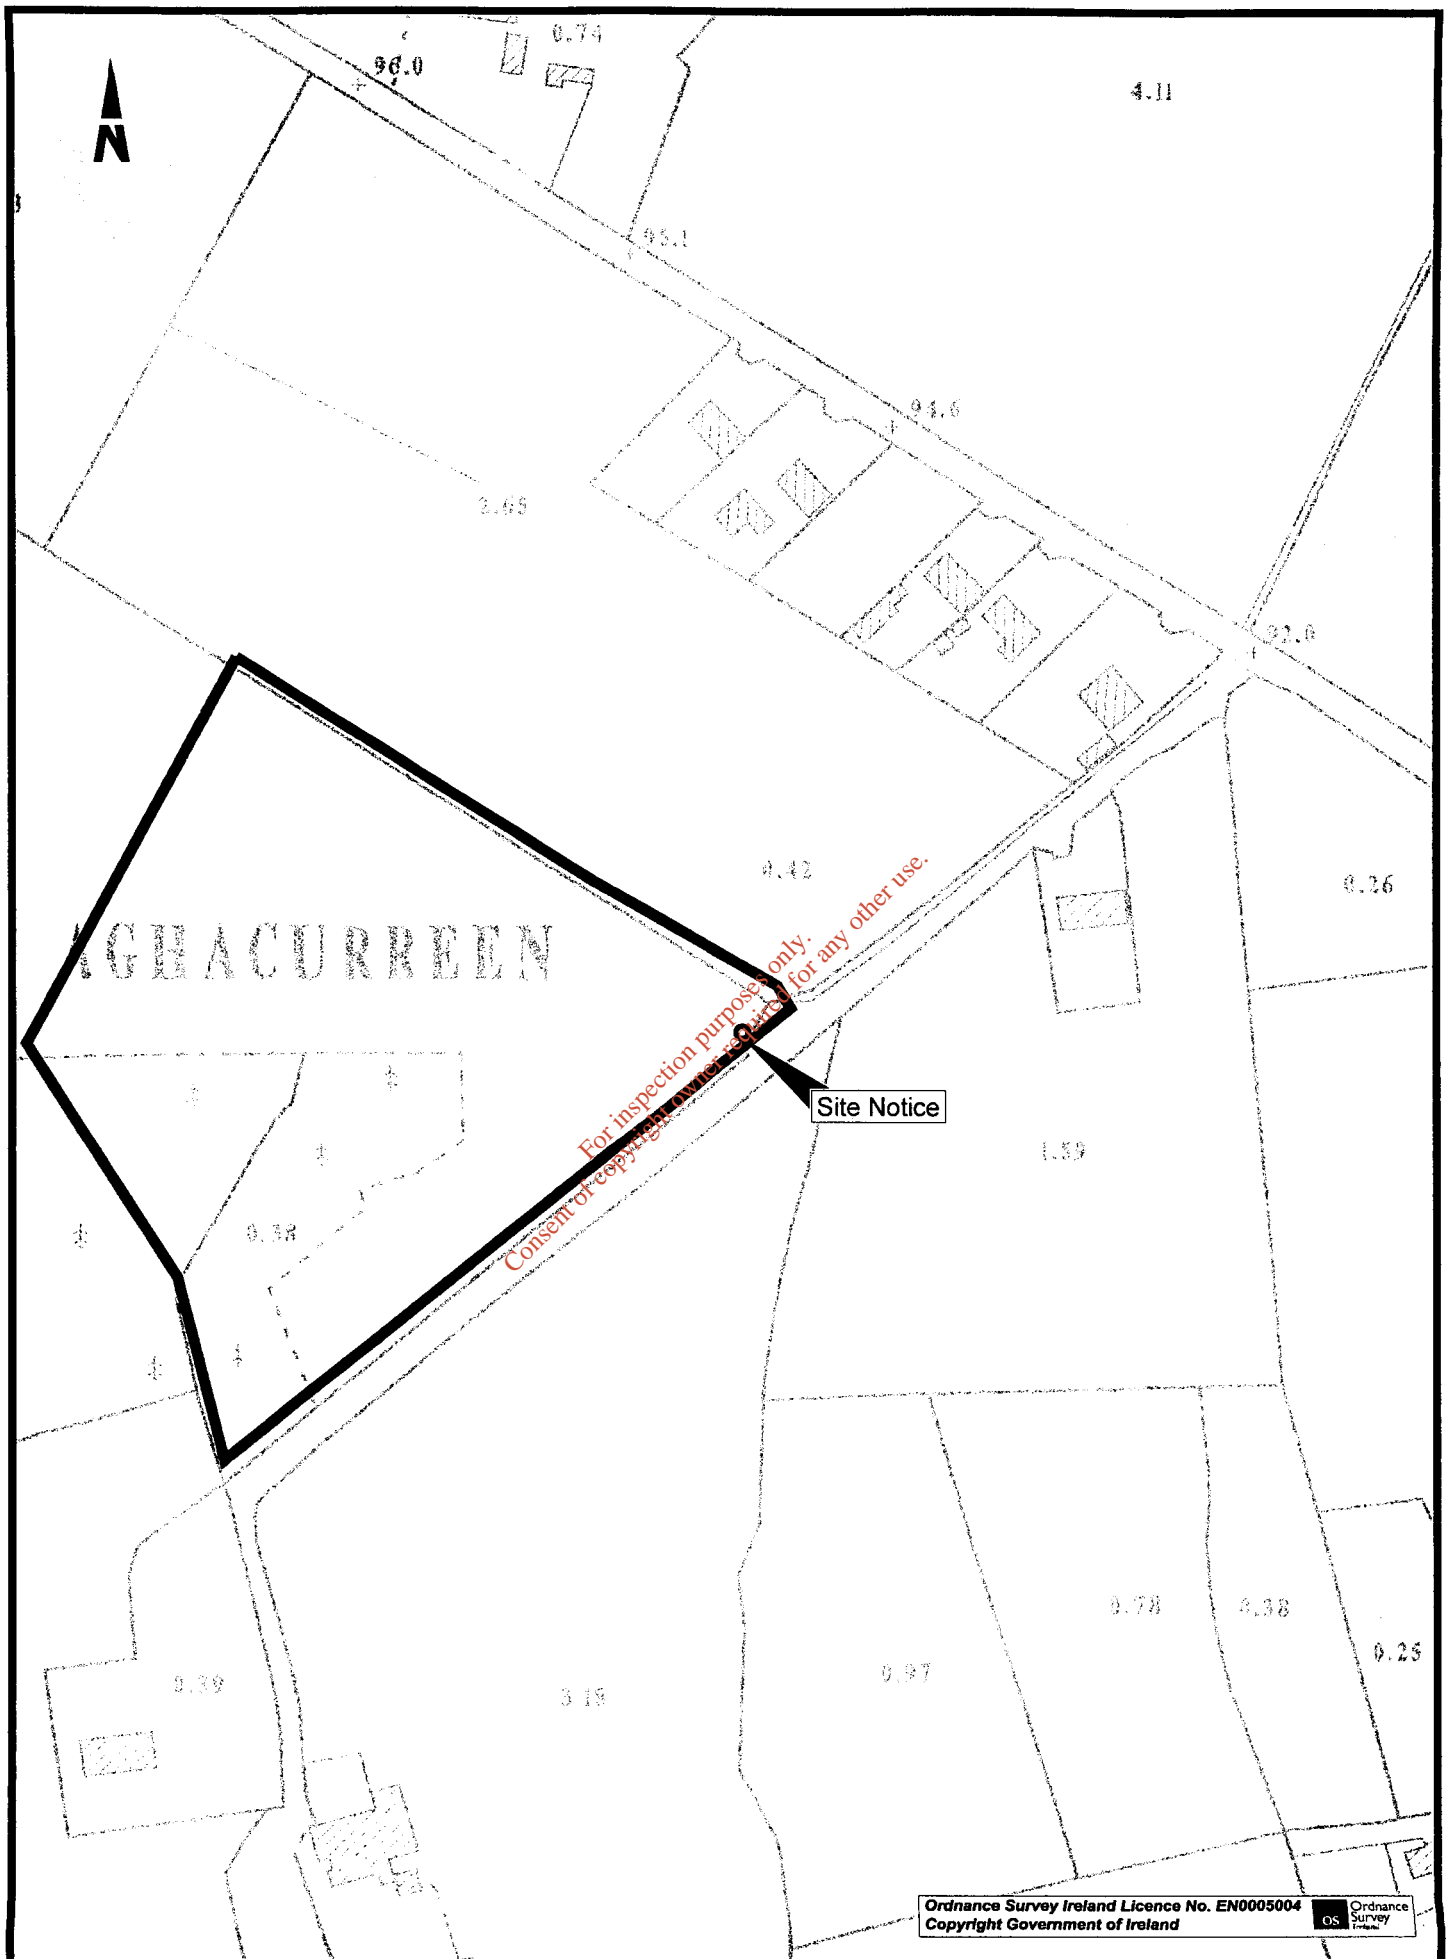

Class 12 - Exchange of waste for submission to any activity referred to in a preceding paragraph of this Schedule.

Class 13 - Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced.

The principle activity at the site is Class 4 of the Fourth Schedule as detailed above.

The application is accompanied by an Environmental Impact Statement (E.I.S.).

The Waste Licence Application and EIS will be submitted to the Agency within two weeks of the publication of this notice. A copy of the Waste Licence Application and EIS and such further information relating to the application as may be furnished to the Agency in the course of the Agency's consideration of the application will, as soon as is practicable after receipt by the Agency, be available for inspection and purchase, at the Headquarters of the **Environmental Protection Agency, Johnstown Castle Estate, Wexford.**

**Re: Notice to Planning Authority
Killarney Waste Disposal - Waste Licence Application**

Dear Sir/Madam,

In accordance with Article 9 of the Waste Management (Licensing) Regulations 2004, Killarney Waste Disposal Ltd. Aughacurreen, Killarney, Co. Kerry wish to notify the Planning Authority, Kerry County Council that a Waste Licence Application will be submitted to the Environmental Protection Agency (EPA) within two weeks from the date of advertisement in the Irish Times (21st January 2005).

Killarney Waste Disposal Ltd. propose to extend their existing Materials Recovery Facility, which currently operates under a Waste Permit from Kerry County Council and increase the annual intake to 40,000 tonnes per annum.

Please find attached the required notice in accordance with Article 9 of the Waste Management (Licensing) Regulations 2004 and a copy of the newspaper advertisement.

The planning reference number for the facility is 2131/04.

Yours sincerely,

Siobhan Aherne
Senior Project Scientist
for and on behalf of RPS-MCOS Ltd.

PUBLIC NOTICES

Application to the Environmental

Protection Agency for a Waste Licence
Notice is hereby given in accordance with Articles 5 and 6 of the Waste Management (Licensing) Regulations 2004 (S.I. No. 395 of 2004) that Killarney Waste Disposal Ltd., Aughacureen, Killarney, Co. Kerry are applying to the Environmental Protection Agency for a Waste Licence within two weeks of this date in respect of extending their existing Materials Recovery Facility located in the townland of Aughacureen, Killarney, Co. Kerry - National Grid Reference as follows: 936, 205E, 939, 375N.

Killarney Waste Disposal Ltd. propose to extend their existing facility which currently operates under a Waste Permit from Kerry County Council and increase the annual intake to 40,000 tonnes per annum for non-hazardous waste.

The Classes of Waste Disposal and Recovery Activities applied for as per the Third and Fourth Schedules of the Waste Management Acts, 1996 to 2003 are as follows:

Third Schedule

Class 11 - Blending or mixture prior to submission to any activity referred to in a preceding paragraph of this Schedule.

Class 12 - Repackaging prior to submission to any activity referred to in a preceding paragraph of this Schedule.

Class 13 - Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.

Fourth Schedule

Class 2 - Recycling or reclamation or organic substances which are not used as solvents (including composting and other biological processes).

Class 3 - Recycling or reclamation of metals and metal compounds.

Class 4 - Recycling or reclamation of other inorganic materials.

Class 11 - Use of waste obtained from any activity referred to in a preceding paragraph of this Schedule.

Class 12 - Exchange of waste for submission to any activity referred to in a preceding paragraph of this Schedule.

Class 13 - Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced.

The principle activity at the site is Class 4 of the Fourth Schedule as detailed above.

The application is accompanied by an Environmental Impact Statement (E.I.S.).

The Waste Licence Application and EIS will be submitted to the Agency within two weeks of the publication of this notice. A copy of the Waste Licence Application and EIS and such further information relating to the application as may be furnished to the Agency in the course of the Agency's consideration of the application will, as soon as is practicable after receipt by the Agency, be available for inspection and purchase, at the Headquarters of the Environmental Protection Agency, Johnstown Castle Estate, Wexford.

WASTE Application Form

Attachment B7

Third Schedule:

Class 11: This activity provides for the processing and mixing of wastes prior to transfer to other facility for disposal.

Class 12: This activity is required for the processing and bailing of waste on-site prior to disposal.

Class 13: This activity is required for the storage of waste arising at the facility prior to disposal.

Fourth Schedule:

Class 2: This activity refers to processing of municipal waste. This material will be processed with a shredder and trommel with the organic fines separated out and sent off-site for composting. Sorted organic waste will also be accepted at the facility.

Class 3:

This activity is required for the sorting of metals which will be stored at the facility and then transferred to a metal recycling facility for recovery.

Class 11: This activity is limited to the packaging of waste by baling, wrapping, placing in containers or trailers prior to submission to a recycling facility.

Class 12: This activity is limited to the exchange of recycling at the facility.

Class 13: This activity is required for the short-term storage of waste at the facility.

The Principal Activity carried out at the site in accordance with the Fourth Schedule of the Waste Management Acts 1996 to 2003, is as follows:

Class 4:

This activity is required for the sorting, separation and processing of mixed municipal waste and separately collected dry recyclables and C&D waste.

TABLE B.7.2 MAXIMUM ANNUAL TONNAGE

The maximum annual tonnage of waste to be handled at the site should be indicated and the year to which the quantity relates indicated.

Maximum Annual Tonnage (tpa)	40,000
Year	2005

B.7.3 FEES

State each class of activity for which a fee is being submitted as per Part I of the Second Schedule of the Waste Management (Licensing) Regulations 2004, S.I. No. 395 of 2004. Note: two fees are required if disposal and recovery are to occur.

Waste Activity	Fee (in €)
Disposal of Waste (3.2)	€10,000
Recovery of Waste (4)	€10,000
Total	€20,000

TABLE B.7.4 (FOR A LANDFILL APPLICATION)

STATE WHICH OF THE FOLLOWING IS RELEVANT TO THE CURRENT APPLICATION.

(a) landfill for hazardous waste	<input type="checkbox"/>
