

## **ATTACHMENT B.4 – SANITARY AUTHORITY**

There will be no direct effluent discharge from the site into public foul sewer or into a public waste water treatment facility.

Waste water in the form of leachate produced on the site will be collected/pumped into a holding tank for storage onsite. The leachate will be hauled, by a tanker to a County Council Waste Water Treatment Plant. The closest plant to the site is in Baltinglass, 5km from the site.

An Effluent Discharge Licence &/or Agreement Between the Applicant and the Body with Responsibility for the Waste Water Treatment Plant (Wicklow County Council) will be required.

A correspondence dated 23 February 2004, seeking to arrange a meeting with Mr. Sean O'Neil, Environmental Section, Wicklow County Council, to discuss the disposal of leachate from the proposed facility at a County Council Waste Water Treatment Plant, is attached. No such meeting has yet taken place, despite making contact again on 5 March 2004.

## **Re: Leachate Disposal**

Dear Mr. O' Neill

We are currently in the process of preparing a waste licence application for a facility at Whitestown Lower in Co. Wicklow that will include processing and treatment of previously deposited wastes at the site. We are seeking a meeting to discuss the disposal of leachate from this facility at a County Council Waste Water Treatment Plant.

I look forward to hearing from you to arrange a meeting to discuss this matter at your earliest convenience.

Yours sincerely

Geoff Parker M.E.Sc., M.I.E.I.

# SITE NOTICE

## APPLICATION TO THE ENVIRONMENTAL PROTECTION AGENCY FOR A WASTE LICENCE

Notice is hereby given in accordance with the provisions of the Waste Management Act, 1996 that Brownfield Restoration (Ire.) Ltd, 7 Ardilea Downs, Mount Anville Road, Dublin 14 will submit an application for a licence for an Integrated Waste Recovery and Disposal Facility located in the Townland of Whitestown, County Wicklow (National Grid Reference E 291269, N 195385).

The principal activity, at the site, as specified in the **THIRD SCHEDULE** to the Waste Management Act, 1996, as amended by S.I. No. 166 of 1998, is as follows:-

"7 Physico-chemical treatment not referred to elsewhere in this Schedule (including evaporation, drying, calcination) which results in final compounds or mixtures which are disposed of by means of any activity referred to in Paragraphs 1. to 10. of this Schedule (including evaporation, drying, calcination).

Other activities carried out at the site, as specified in the Third Schedule to the Waste Management Act, 1996 as amended are as follows:-

"4. Surface impoundment, including placement of liquid or sludge discards into pits, ponds or lagoons"

"5. Specifically engineered landfill, including placement into lined discrete cells which are capped and isolated from one another and the environment"

"11. Blending or mixture prior to submission to any activity referred to in a preceding paragraph of this Schedule"

"13. Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced"

Other activities carried out at the site, as specified in the Fourth Schedule to the Waste Management Act, 1996 as amended are as follows:-

"2. Recycling or reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes)"

"3. Recycling or reclamation of metals and metal compounds"

"4. Recycling or reclamation of other inorganic materials"

"11. Use of waste obtained from any activity referred to in a preceding paragraph of this Schedule"

"13. Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced"

An Environmental Impact Statement will be submitted to the Agency with the Application. A copy of the Waste Licence Application, an Environmental Impact Statement, and such further information relating to the application as may be furnished to the Agency in the course of the Agency's consideration of the application will, as soon as practicable after receipt by the Agency, be available for inspection or purchase at the headquarters of the Agency.

**Re: Research in relation to application reg. ref. 2492/78**

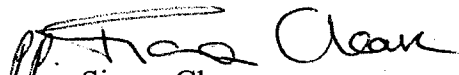

Dear Geoff,

Further to your letter dated 9<sup>th</sup> January 2004 research was undertaken at Wicklow County Council and An Bord Pleanála in relation to Wicklow Co. Co. planning application Reg. Ref. 2492/78.

After a two day intensive search we were unable to uncover any further information upon the planning history/status of the site. Please find enclosed the report outlining the research undertaken and the problems encountered.

If you would like to discuss this matter further please do not hesitate to contact me.

Regards,

  
Simon Clear.

# **Research Report**

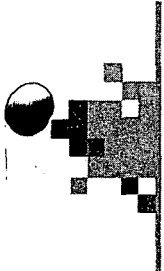

**For**

**Geoff Parker,  
Environment & Resource Management Ltd.**

**In Relation to:**

**Wicklow County Council,  
Reg. Ref. No. 2492/78,  
Whitestown, Stratford on Slaney, Wicklow.**

*For inspection purposes only.  
Consent of Copyright owner required for any other use.*

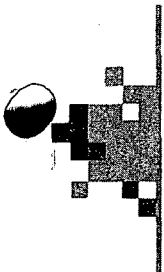

An intensive two day search was undertaken on Tuesday 27<sup>th</sup> and Wednesday 28<sup>th</sup> January 2004 at the offices of Wicklow County Council and via public access in An Bord Pleanala, in order to ascertain the planning history/status of the site subject of planning application Reg. Ref. 2492/78, Whitestown, Stratford on Slaney, Co. Wicklow.

The relevant file was requested from Wicklow Co. Co. to be viewed. The Council have their older files archived in microfiche form at their offices in Wicklow Town. File 2492/78 was requested with the intention of viewing and printing the relevant documentation. The planning department searched for the relevant microfiche but was unable to find it at its correct location in the filing cabinet. An internal email was sent around the offices at Wicklow Co. Co. requesting information with regards the location of the microfiche. It is possible the slide has been removed for prosecution purposes.

Members of the Enforcement Department (Tim Walsh and Fiona Smith) and the Environment Department (Dave Connelly) were requested to provide information using their general knowledge with regard to the site. They all knew the location of the site but had no further knowledge with regard to the planning history or status of the site.

The following day there had been no response to the internal email and the microfiche had not been located. Another avenue of research was undertaken using the councils register reference maps. The location of every application to the council is plotted and recorded on their register reference maps. Planning history can be obtained by locating any applications that were plotted at the site. The old register reference maps were requested. We were informed that the maps that the council possessed only dated as far back as 1987. The application in question dates back to 1978. The maps they did have were viewed. These were in the form of A3 maps and GIS maps on the computer system. No application relating to the subject lands were located through this search.

During this time An Bord Pleanala were also attempting to obtain the appeal reference number in relation to the planning application from Wicklow Co. Co., with no success due to the same problems that we were encountering. Without an appeal reference number the Bord were unable to provide copies from their records. The Bord needed the help of Wicklow Co. Co. to obtain their archived appeal reference number.

We will continue to investigate through whatever channels that may become available.

Yours sincerely,

PP.   
Simon Clear.

AN BORD PLEANALA

LOCAL GOVERNMENT (PLANNING AND DEVELOPMENT ACTS, 1963 AND 1976

County Wicklow

Planning Register Reference Number: 2492/78

APPEAL by Edward and Mary Brady of Whitestown, Stratford - on - Slaney, County Wicklow and Thomas West, "Ravens", Castleruddery, Donard, County Wicklow against the decision made on the 19th day of September, 1978, the Council of the County of Wicklow deciding to grant subject to conditions a permission to Sand Gravel and Stone Limited for development comprising the provision of a portable gravel washing and granting plan on a site at Whitestown in accordance with plans and particulars lodged with the said council:

DECISION: Pursuant to the Local Government (Planning and Development) Acts, 1963 and 1976, it is hereby decided for the reason set out in the First Schedule hereto, to grant permission for the said development in accordance with the said plans and particulars, subject to the conditions specified in column 1 of the Second Schedule hereto, the reasons for the imposition of the said conditions being as set out in column 2 of the said Second Schedule and the said permission is hereby granted subject to the said conditions.

SCHEDULE

It is considered that the development carried out in accordance with the permission granted by this order would not be injurious to the amenity of residential property in the vicinity or of the area and would be consistent with the proper planning and development thereof.

## ATTACHMENT B.3 – PLANNING AUTHORITY

### B.3.1 Planning Status

To date, supporting information in relation to the planning application for the site has not been located despite a thorough investigation for same. A Decision to Grant Planning Permission (2492/78 Wicklow County Council) was located. This Decision was appealed and An Bord Pleanála granted planning permission on 28<sup>th</sup> March 1979 (Ref No. PL 43504). This permission included the submission of a scheme for the landscaping and reinstatement of the lands.

Details on searches for records and the Planning Permission granted by An Bord Pleanála for the site are attached.

Planning Permission will be required for elements of the proposed development and an application is presently being prepared.

**Re: Research in relation to application Reg. Ref. 2492/78**

Dear Geoff,

Further to my conversation with Conor Wall dated 5<sup>th</sup> February 2004, further research was undertaken at Wicklow County Council and An Bord Pleanala in relation to Wicklow Co. Co. planning application Reg. Ref. 2492/78.

On the 10<sup>th</sup> February 2004 Wicklow County Council were requested to produce a statement in writing indicating that they were unable to produce file 2492/78. This statement has not been made available by Wicklow County Council.

An Bord Pleanala contacted us today after searching their archives for appeal reference number PL 43504. (The appeal Ref. Re: 2492/78). They have informed us that the file has been culled, incinerated and is therefore no longer available.

If you would like to discuss this matter further please do not hesitate to contact me.

Regards,

Project No. 03.116

**RE: Application to the Environmental Protection Agency for  
a Waste Licence – Newspaper Notice.**

Dear Sir / Madam,

In accordance with Article 9 of the Waste Management (Licensing) Regulations, 2000, I wish to inform you that our office will submit a Waste Licence Application on behalf of our client Brownfield Restoration Ireland Ltd. for a waste recovery and disposal facility at Whitestown Lower, Co. Wicklow. This application will be submitted to the EPA's offices in Johnstown Castle Estate, County Wexford.

A copy of the newspaper notice published in regard to this application, which meets the requirements of Article 6 of the above-mentioned Regulations, is attached.

Yours sincerely

Geoff Parker, M.E.Sc., M.I.E.I., M.I.W.M.

## APPLICATION TO THE ENVIRONMENTAL PROTECTION AGENCY FOR A WASTE LICENCE

Notice is hereby given in accordance with the provisions of the Waste Management Act, 1996 that Brownfield Restoration (Ire.) Ltd, 7 Ardilea Downs, Mount Anville Road, Dublin 14 will submit an application for a licence for an Integrated Waste Recovery and Disposal Facility located in the Townland of Whitestown, County Wicklow (National Grid Reference E 291269, N 195385).

The principal activity, at the site, as specified in the **THIRD SCHEDULE** to the Waste Management Act, 1996, as amended by S.I. No. 166 of 1998, is as follows:-

"7 Physico-chemical treatment not referred to elsewhere in this Schedule (including evaporation, drying, calcination) which results in final compounds or mixtures which are disposed of by means of any activity referred to in Paragraphs 1. to 10. of this Schedule (including evaporation, drying, calcination).

Other activities carried out at the site, as specified in the Third Schedule to the Waste Management Act, 1996 as amended are as follows:-

"4. Surface impoundment, including placement of liquid or sludge discards into pits, ponds or lagoons"

"5. Specifically engineered landfill, including placement into lined discrete cells which are capped and isolated from one another and the environment"

"11. Blending or mixture prior to submission to any activity referred to in a preceding paragraph of this Schedule"

"13. Storage prior to submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced"

Other activities carried out at the site, as specified in the Fourth Schedule to the Waste Management Act, 1996 as amended are as follows:-

"2. Recycling or reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes)"

"3. Recycling or reclamation of metals and metal compounds"

"4. Recycling or reclamation of other inorganic materials"

"11. Use of waste obtained from any activity referred to in a preceding paragraph of this Schedule"

"13. Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced"

An Environmental Impact Statement will be submitted to the Agency with the Application. A copy of the Waste Licence Application, an Environmental Impact Statement, and such further information relating to the application as may be furnished to the Agency in the course of the Agency's consideration of the application will, as soon as practicable after receipt by the Agency, be available for inspection or purchase at the headquarters of the Agency.

**PUBLIC NOTICES**

**APPLICATION TO THE ENVIRONMENTAL PROTECTION AGENCY FOR A WASTE LICENCE**

NOTICE is hereby given in accordance with the provisions of the Waste Management Act, 1996 that Brownfield Restoration (Ire.) Ltd., Ardara Downs, Mount Anville Road, Dublin 14 will submit an application for a licence for an Integrated Waste Recovery and Disposal Facility located in the Townland of Whitestown, County Wicklow (National Grid Reference E 291269, N 195385).

The principal activity, at the site, as specified in the THIRD SCHEDULE to the Waste Management Act, 1996, as amended by S.I. No. 166 of 1998, is as follows:-

7. Physico-chemical treatment not referred to elsewhere in this Schedule (including evaporation, drying, calcination) which results in final compounds or mixtures which are disposed of by means of any activity referred to in Paragraphs 1. to 10. of this Schedule (including evaporation, drying, calcination).
- Other activities carried out at the site, as specified in the Third Schedule to the Waste Management Act, 1996 as amended are as follows:-
4. Surface impregnation, including placement of liquid or sludge discards into pits, ponds or lagoons.
5. Specifically engineered landfill, including placement into lined discrete cells which are capped and isolated from one another and the environment.
11. Blending or mixture prior to submission to any activity referred to in a preceding paragraph of this Schedule.
13. Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.
- Other activities carried out at the site, as specified in the Fourth Schedule to the Waste Management Act, 1996 as amended are as follows:-
2. Recycling or reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes).
3. Recycling or reclamation of metals and metal compounds.
4. Recycling or reclamation of other inorganic materials.
11. Use of waste obtained from any activity referred to in a preceding paragraph of this Schedule.
13. Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced.

An Environmental Impact Statement will be submitted to the Agency with the Application. A copy of the Waste Licence Application, an Environmental Impact Statement and such further information relating to the application as may be furnished to the Agency in the course of the Agency's consideration of the application will, as soon as practicable after receipt by the Agency, be available for inspection or purchase at the headquarters of the Agency.

This application may be inspected or purchased at the offices of Cavan County Council, Planning Authority, Courthouse, Cavan, during normal office hours. A submission or observation in relation to the application may be made in writing to the Planning Authority on payment of a fee of €20 within the period of 5 weeks beginning on the date of receipt by the Planning Authority of the application.

## ATTACHMENT B.6 – TYPE OF ACTIVITY

### Third Schedule Waste Disposal Activities

The proposed development includes or will include the following **Waste Disposal Activities** that are listed in the Third Schedule of the WMA, 1996:

#### **7. Physico-chemical treatment**

This Principal Activity includes recovery activities for previously deposited wastes as well as recovery activities for a portion of the proposed incoming wastes.

#### **4. Surface impoundment, including placement of liquid or sludge discards into pits, ponds or lagoons.**

A Leachate holding tank will be constructed on site.

#### **5. Specially engineered landfill, including placement into lined discrete cells, which are capped and isolated from one another and the environment.**

The base of the existing and future sand and gravel pit will be lined with a geological barrier and geomembrane. A leachate collection and evacuation system will also be included. The landfill will be developed in six phases. The phases will be distinct, but the basal leachate collection system will interconnect the phases.

#### **11. Blending or mixture prior to submission to any activity referred to in a preceding paragraph of this Schedule.**

The applicant proposes to receive and separate certain types of waste from the tipped loads for reuse e.g. subsoil, broken concrete, bricks etc. The separated wastes may be processed and/or mixed. The separated or mixed wastes may be stockpiled.

#### **13. Storage prior to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.**

From time to time some waste may be delivered to the site and because of its nature will not be landfilled. Purpose built waste bins or skips will be provided on site to quarantine any unacceptable wastes. The rejected waste will be hauled from the site to the appropriate licensed disposal facility.

## **Fourth Schedule Waste Recovery Activities**

The development includes or will include the following **Waste Recovery Activities** listed in the Fourth Schedule of the WMA, 1996:

### **2. Recycling or reclamation of organic substances, which are not used as solvents (including composting and other biological transformation processes).**

Source separated organic food wastes and green wastes will be received at the facility. An in-vessel composting technology will be used to compost food wastes, including woody amendments. Some green wastes may be composted outdoors in windrows.

This also includes the receipt of source-separated paper and cardboard, timber, wood, and green waste from the household and C&I sectors for sorting and processing (i.e. baling) prior to shipping to off-site markets.

### **3. Recycling or reclamation of metals and metal compounds.**

Receiving, holding and collection of metals and wire found in construction and demolition wastes are construed to fall under this activity.

This also includes the receipt of source separated metal waste from the household and C&I sectors for sorting and possible processing (i.e. baling) prior to shipping to off-site markets.

### **4. Recycling or reclamation of other inorganic materials.**

Receiving and reusing inert construction and demolition wastes such as clay, topsoil, broken concrete and asphalt are construed to fall under this activity.

This also includes the receipt of source-separated plastics, glass and other inorganic recyclable wastes from the household and C&I sectors for sorting and processing (i.e. baling) prior to shipping to off-site markets.

### **11. Use of waste obtained from any activity referred to in a preceding paragraph of this Schedule.**

The inert construction and demolition wastes such as clay, topsoil, broken concrete and asphalt will be used at the site. Compost produced at the site will be used at the site.

### **13. Storage of waste intended for submission to any activity referred in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where such waste is produced.**

Storage of inert materials in stockpiles prior to processing and reuse and storage of metals, wire etc. in skips prior to recovery are construed to fall under this activity. Storage of compost prior to use is also construed to fall under this activity.

*For inspection purposes only.  
Consent of copyright owner required for any other use.*

## ATTACHMENT B.11 – MANAGEMENT PLANS

Three Management Plans were reviewed as relevant Management Plans with regards to the proposed development. They are:

- County Wicklow Waste Management Plan, 2000-2004;
- National Hazardous Waste Management Plan, 2001;
- River Slaney Water Quality Management Plan, 1981.

### 1. County Wicklow Waste Management Plan (2000-2004)

The two main objectives of the County Wicklow Waste Management Plan prepared in 1999/2000 are:

- A clear policy and implementation plan for future waste management in the county, to conform to Irish and EU waste policy and legislation;
- A solution to be found for the short-term crisis in waste disposal in the county.

The proposed development at Whitestown Lower would assist County Wicklow meet these objectives, as the proposed facility will:

- provide waste recovery, recycling and composting infrastructure, which will conform with the Irish and EU waste policy and legislation.
- help elevate the present shortage of waste disposal capacity in Co. Wicklow, which threatens both an economic and environmental crisis for the County
- help elevate the lack of sorting and reprocessing capacity for recyclables in the County as well as recycling capacity for C&D wastes

### 2. National Hazardous Waste Management Plan, 2001

The EPA published a National Waste Management Plan on 5 July 2001, in accordance with Section 26 of the Waste Management Act, 1996. The primary objective of the plan is to prevent the production of hazardous waste and to minimise the effect on the environment. The secondary objective is to manage that hazardous waste which cannot be prevented.

The proposed development at Whitestown will not accept imported hazardous waste. If an element of hazardous waste is identified within the imported waste, during the recovery process, the material will be quarantined and organised for export and specialist disposal in a fully authorised manner. There is a possibility that during the excavation of unauthorised previously deposited wastes, an element of hazardous wastes shall be identified. The management of historical hazardous waste disposal sites is a principle topic dealt within the plan, which states that:

*Local authorities, in conjunction with their waste management planning functions, identify sites at which hazardous waste disposal activities took place and prioritise these sites into those requiring short, medium and long term action and/or remediation.*

### **3. River Slaney Water Quality Management Plan, 1981**

The above plan has not been updated since 1981 and is therefore seen as outdated.

### **4. South Eastern River Basin District Project**

As introduced by the EU Water Framework Directive (2000), the European Communities (Water Policy) Regulation 2003 (S.I. No. 722 of 2003) requires that water quality planning and management be co-ordinated by all competent authorities on the basis of river basins. The South Eastern River Basin District Project is set up under these regulations. The major river systems in the South East include the Rivers Slaney, Barrow, Nore and Suir. Groundwaters, estuaries and coastal waters out to a distance of one nautical mile will also be covered.

The objective of the project is to establish a water quality monitoring and management system in relation to the combined river basins in the South East and to provide the bulk of the baseline information required for the development of a comprehensive River Basin Management Plan for the area by 2008. It will identify all significant impacts on water quality and quantity, set quality objectives and identify and put in place the necessary monitoring and management measures to achieve those objectives.
