28 April 2004

Dear Sir/Madam,

I am shocked and dismayed to hear of the proposal before you for a Waste Management Facility at O'Reilly's Pit, Whitestown, Donard. It is incredible that a site notorious for illegal dumping should even be considered for such an operation. Have the people of this area not suffered enough pollution, health-risk, noise and degradation of their environment?

Any sanction of such a proposal by you, would mark the EPA out as condoning and even encouraging the illegal acts that have preceded, (and prompted) this proposal. I wish to record, in the strongest possible terms, my objection to

this proposal, and I hope the EPA will
recognise and honour the clear wishes of the vast
majority of the population of this area, who don't
wish it to proceed.

Yours sincerely,

Terence Kelly
