Re: Application No. 204-1 Beamfield Restoration

Island Ltd.

I wish to object to the application on the following grounds;

The site is not geologically suitable for landfill because it is a gravel / sand pit in a river valley.

The site is adjacent to a "revised" designated Special Area of Conservation.

The ecology of the district would be adversely affected by the proposed development. The River Slaney fishing, particularly for salmon, from the Wicklow hills to the sea at Wexford would be adversely affected.

In conclusion I consider the proposal unsuitable for the location at Wicklowham Lower.

Yours sincerely  
James Butler
