

Subd (115)

Castle Ruddy Lower

Ref no: 204-1 (Brownfield Restoration)

Dear Sir/Madam,

In addition to our previous objection to a waste management facility at Whitestown, we now wish

to object to the recent development of moving the boundary of the special area of conservation (SAC) on the Carrigower river to facilitate the Landfill. We feel this is a disgraceful move and would allow very poor environmental practise to take place.

This river is a known salmon spawning river and a source of many wildlife.

We also feel this move further rewards criminal behaviour which caused the dumping in the first place. As parents of a young family we strongly object.

Yours sincerely

Anne Sheehy
