To whom it concerns,

RE: Moving Boundary of SAC on Carrigower River

As a concerned local resident, and further to our previous objection to a waste management facility at Whitelawn, we now wish to object to the recent development

of moving the boundary of Special Area Conservation on the Carrigower River. We feel this would pose a serious threat to the salmon spawning and wildlife in the area. This more further rewards the

cumulative behaviour which has occurred in this area. This will be considered seriously (Trusting)

Yours Sincerely

Paul + Mary Metcalfe
