Re: Reg No. 204-1, waste management licence at Whitestown

Dear Sir / Madam,

As a local resident to Whitestown site, we strongly oppose Brownfields proposal to turn this site into an integrated waste management facility.

We feel this site is totally unsuitable for some. It is unnecessary as West Wicklow has already a legal dump nearby.

It is also a special area of conservation. It runs alongside to the Congowen river. Wicklow County Council have stated that it is an unsuitable site environmentally for a dump. Criminal investigations have not been completed on illegal dumping in this site.

2
we feel past criminal activity has now
shaped the way for a dump in this area,
despite the fact that the site is totally
unsuitable.

Trusting you will take our viewpoint
into consideration.

Please keep us informed of any further
developments.

Yours sincerely

Anne & Malachy Sheridan
