Dear Sir/Madam,

I refer to your letter of 28th April, 2006 regarding the above Waste Licence Application and in this connection should be obliged if you will refer to document attachment for details of the Planning Officer's report in this matter.

Yours faithfully,
Les doyle,
Senior staff Officer,
Planning Department.

Re ; W0222- 01 ;Waste licence application for Greenclean Waste Management at Coldwinters, Blakes Cross.

Further to your letter dated 28th April 2006, the following are general comments on the proposal.

Having regard to the sites location - surrounded by land zoned for agri-business uses, the Planning Authority would be of the opinion that any expected negative impacts of the proposed operation (and its increased intensity of use) on these land uses would be considered. These would include mitigation of impacts relating to noise, dust, and odour emissions, and also the general impact of increased vehicular movements

The site location map illustrates an Eastern Health Board Residential Unit and horticultural closeby, and impacts on these should be considered. It is noted that parking and skip storage would be in close proximity to the Residential Unit and that only a stream separates the two sites. Appropriate boundary treatment and setbacks may need to be detailed . Impacts on the existing stream, which runs through the site would also need to be examined.

Regards

Myles Farrell
Planning Dept.
