14th June 2006

Re: Waste Licence Application Reg. 211-1 AVR Environmental and Submission of additional information/clarifications in response to the Article 14(2)(b)(ii) response submitted dated 12th May 2006, received by the Agency 18/05/2006.

Please find attached written clarification regarding the above referenced licence application requested by Ms Ciara Maxwell licencing officer for the above referenced application.

- i) Specification of the site boiler - 3.5MW biomass boiler
- ii) Re-submission of drawing ref 2004-121_01 Rev A (now updated 14/06/06) correcting a previous error in the groundwater monitoring reference emission point numbering. The previous references (both labelled WM1) have now been re-labelled as MW 1 and MW 2 - attached as appendix 1.

If you have any further queries with respect to this please contact the undersigned.

Kind regards

Denis O Sullivan
Project Manager
