Re: Goff Recycling Ltd.
FAO. DR. KAREN CREED.

Dear Sirs,

I am writing to complain about the odours that the above plant is emitting. The odours are very similar to those you would get at any tip-lead, and at their strongest are very sickening. Yesterday the 26/7/06 these odours were very serious and caused me to write this complaint.

I have also complained to Goffs about odours arising from their plant in Kilrane on the 2nd, 3rd, 4th and 5th of July 2006. When I complained on the 3rd & 4th Danier

Goff replied that the plant was closed on Sunday 2nd July and that the premises was empty. I can assure you that the odours were present on the Sunday 2nd. These odours which affect me arise when the wind direction is from the North, North East and East.

I have noted also as the plant continues to grow so too does the noise levels. When busy the machinery make high pitched sounds (Safety mechanisms) which can continue for hours on a daily basis.

Yours Sincerely
Donald Goff
