--

Margaret Kavanagh

- I have lived and earned my living all my life on my farmland. I am now 83 years of age and would like to live the rest of my days at home on my land enjoying the fruits of my many years of hard work.
- I object to the proposed landfill at the Nevitt as it will destroy the whole tenure of the affected area and the surrounding environment. The land, the streams, my neighbours' houses, the wildlife, the plants etc will all be affected and myself and my neighbours will have to relocate and start our lives again in new areas, new houses and with new neighbours.
- I think the Fingal area and particularly the Lusk and North County Dublin area has already contributed handsomely to the greater Dublin problems eg. Balaelly Land fill, Oberstown / Trinity House reform prison, sewage plants, gas stations, water reservoirs, social housing, ESB pillons and many others.
- I cannot comprehend the effect this landfill will have on peoples health, the water we drink, the farm produce we grow and consume, the areas history, the archaeological aspect of the area and so on.
- Does the financial compensation eventually received really compensate for the observations listed above:

Margaret Kavanagh.

Rowans.

Lusk, Co. Dublin.
