**Re: Corranure Landfill – W0077-02 – Request for Technical Amendment of Condition 1.5**

Dear Mr. Denning,

I acknowledge receipt of your letter received on 18<sup>th</sup> September 2006 in relation to Waste Licence Reg. No W0077-02 and your request for a Technical Amendment of Condition 1.5.

I have assessed your request for a technical amendment of this condition of your licence. The absence of any environmental assessment or report by the licensee regarding the operation and acceptance of waste at the facility at the earlier hour of 07:30, leaves the Agency with no other option but to reject the request. The EIS that was submitted with the earlier review of the licence for this extended facility does not address the waste acceptance or operating hours associated with this request.

I am to advise you that should you submit a subsequent request for technical amendment, the Agency will consider same but only on the basis that there is environmental information and impact assessment supporting the request. Please note that there is no guarantee that such a request if supported with the necessary information would be granted by the Agency, and the requirements of Section 42B of the Waste Management Acts 1996 to 2003 must be complied with.

Yours sincerely,

Ciara Maxwell  
Licensing Inspector
