**RE: KMK Metals Recycling Ltd (WO113-03)
Compliance with Article 8 of the Waste Management (Licensing)
Regulations**

Dear Ms Leacy,

In response to the letter sent by Ms Marian Doyle on 9th July 2007, I can submit and confirm the following:

KMK Metals Recycling Ltd has completed the following actions in order to comply with Article 8 of the regulations in your letter;

1. An amended newspaper notice has been prepared and published, a copy of this newspaper notice is attached.
2. The site notice has been revised and replaced accordingly. This notice was erected at the site on the 19th July 2007.
3. This notice is being maintained at the site.
4. This letter has been forwarded to Offaly Co Co planning authority (copy attached)
5. This work has been carried out.

Consent of copyright owner required for any other use.
For inspection purposes only.

BOW HOUSE O'MOORE STREET TULLAMORE CO. OFFALY
T/F: 057 935 2200 • email: info@enviroco.ie • www.enviroco.ie

Registered in Ireland, Number 297801 • Directors: A. Fahey. D. Fahey

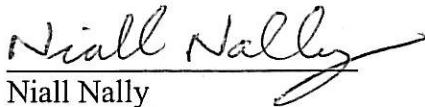

Further info is attached as follows;

1. An original newspaper page and two copies of the amended notice are attached.
2. A drawing is also attached showing the locations of the site notices.
3. An amended site notice is attached.

I enclose a letter from the planning section of Offaly County Council making reference that an Environmental Impact Statement (EIS) is not required for the site.

A CD-ROM of all information referred to here attached also as requested.

Yours Sincerely,

Niall Nally

Senior Environmental Consultant

Warning On The Dangers Of Flash Flooding

Following on from the very heavy rain, which caused so much havoc with serious and unfortunate loss of life to both young and old in parts of England and Wales, the Chairman of Irish Water Safety Mr. Frank Nolan is concerned that a similar situation could arise in Ireland during the summer.

Irish Water Safety feels that it is timely to give warning and bring to the notice of the public the concern of the Chairman on this matter. As in the United Kingdom, Ireland faces at any time the possibility of flooding, caused by very heavy and widespread rain resulting from the passage of low pressure over the country.

'We wish to take this opportunity to warn about the risks to the public if such weather conditions where to hit this country, which could lead to flash flooding. It is appreciated

street kerbs and signage, normally there as a convenience to the public, suddenly become dangerous obstacles in flood waters, therefore Irish Water Safety impress on people to avoid tragedy by calling for assistance at the FIRST sign of danger. Do not wait until it is too late. In extreme circumstances floodwater can rise one metre in a very short period of time, even in less than five minutes. If you are in your dwelling or office try to move up to a higher floor until help arrives. Remember also that it is in the night time that flash flooding occurs which increases the hazard dramatically. Remember also that electricity and water do not mix and great care must be taken if using electric appliances in flooded or damp conditions especially in a dwelling or other place. The advice of the

APPLICATION TO THE ENVIRONMENTAL PROTECTION AGENCY FOR THE REVIEW OF A WASTE LICENCE

Notice is hereby given in accordance with the provisions of the Waste Management Acts 1996 to 2005, and the Waste Management (licencing) Regulations, 2004 that KMK Metals Recycling Ltd, Cappincur Industrial Estate, Daingean Road, Tullamore, Co. Offaly will apply to the Environmental Protection Agency (EPA), Johnstown Castle Estate, County Wexford for a review of their Waste Licence. The licence review application relates to the operation of a hazardous and non hazardous waste transfer facility located at Cappincur Industrial Estate, Daingean Road, Tullamore, Co. Offaly (National Grid Reference: 3595E, 2500N) whereby it is proposed to increase the current waste acceptance of 10,000 tonnes per year to a maximum of 20,000 tonnes per year.

The principal class of activity to be carried out by KMK Metals Recycling Ltd as defined by the Waste Management Act 1996 to 2005 is:

Class 13 of the Fourth Schedule Storage of waste intended for submission to any activity referred to in a preceding paragraph of this Schedule, other than temporary storage, pending collection, on the premises where the waste concerned is produced.

Other activities to be carried out on site include:

Class 3 of the Fourth Schedule: Recycling or reclamation of metals and metal compounds.

Class 4 of the Fourth Schedule: Recycling or reclamation of other inorganic materials.

Class 6 of the Fourth Schedule: Recovery of components used for pollution abatement

Class 7 of the Fourth Schedule: Recovery of components from catalysts.

Class 11 of the Fourth Schedule: Use of waste obtained from any activity referred to in a preceding paragraph of this schedule.

Class 12 of the Fourth Schedule: Exchange of waste for submission to any activity referred to in a preceding paragraph of this schedule.

A copy of the waste licence review application and further information relating to the review as may be furnished by the Agency in the course of the Agency's consideration of the application, will, as soon as is practicable after receipt by the Agency, be available for inspection or purchase, at the offices of the Environmental Protection Agency, PO Box 3000, Johnstown Castle Estate, Co. Wexford during office hours.

Re: KMK Metals Recycling Ltd, Cappincur Industrial Estate, Tullamore

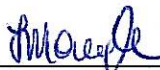

Dear Sir,

I wish to acknowledge receipt of correspondence received by the Planning Authority on 18/07/07 in relation to the above.

We wish to advise you that no EIS was either received or required in relation to any application on this site. We wish to advise further that the requirement for an EIS to be submitted is for the purposes of a planning application only in accordance with the provisions of the Planning & Development Acts 2000 – 2006. It is outside the remit of the Planning Authority to decipher what is or is not required as part of a waste licence review application.

We hope this clarifies this issue for you.

Yours faithfully

**RE: Waste licence REVIEW application by KMK Metals Recycling Ltd,
Cappincur Industrial Estate, Daingean Road, Tullamore, Co Offaly.
Ref: W0113-03**

Dear Sir/Madam

My client, KMK Metals Recycling Ltd wishes to inform you that they have made a waste licence review application to the Environmental Protection Agency (EPA) in the last month and as such are confirming the same to your office under Article 9 of the Waste Management (Licensing) Regulations 2004.

The waste licence review application is for the existing facility located at Cappincur Industrial Estate, Daingean Road, Tullamore which is presently licensed by the EPA (ref: W0113-02) where the annual waste acceptance intake will be increased from 10,000 tonnes per year to a maximum of 20,000 tonnes per year.

Yours Sincerely

Niall Nally
Environmental Consultant
