Location of facility:	Pigeon House Road, Poolbeg, Dublin 4
Licence application received:	10-7-2006
Third Party submissions:	14
EIS Required:	Yes

Since the IR for this application was submitted to the Board for consideration on 21st July 2007 a further submission has been received. This addendum report considers that submission.

**Submission #14: Synergen – Dublin Bay Power Plant , Ringsend, Dublin
4. Received 2 August 2007.**

The submission raises concerns for the efficient performance of, as well as compliance issues for, the Synergen operation as a result of the thermal discharges from (and intake to) the proposed Dublin City Council Poolbeg WtE plant. This submission covers a number of the same issues raised by Synergen in their first submission, received 20/10/2006. The matters raised in this new submission have been adequately addressed in the sections 4.3 and 13.2 of the Inspectors Report for the WtE facility application dated 27th June 2007 and presented to the Board of the Agency on 21st July 2007.

Recommendation

I have considered the matters set out in the submission and I am satisfied that the RD as drafted and presented to the Board of the Agency on 21st July 2007 addresses the concerns raised.

Signed

Dr Jonathan Derham
Senior Inspector

Procedural Note

In the event that no objections are received to the Proposed Decision on the application, a licence will be granted in accordance with Section 43(1) of the Waste Management Acts 1996-2005.
