RE: Meeting with EPA OLG 08th November 2007

Dear Ms. Wylde,

I wish to confirm the outcome of the meeting between South Tipperary County Council and the Office of Licensing and Guidance on 08th November regarding the recently issued Technical Amendment to the Donohill Landfill Waste Licence.

- STCC will install a Class I Full Retention oil interceptor and silt trap at SW5 as per Condition 3.20 and 6.5.4. However, it was agreed that it would not be necessary to install an oil interceptor at SW7 or the proposed SW8 as the run off to these points is from capped grassed areas. A silt trap appropriate to the risk at SW7 and SW8 will be designed and installed at these points. The OLG will amend Condition 3.20 and 6.5.4 to exclude runoff from permanently capped areas of the site from requiring an Oil Interceptor.
- Condition 6.5.2 will be amended to exclude surface water runoff from permanently capped areas of the site.
- Condition 6.5.5 will be amended to read Free Ammonia instead of Ammoniacal Nitrogen.
- Schedule C.5 will be amended to read Total Ammonia as NH₃ instead of Total Ammonia as N.

If you have any queries please do not hesitate to contact this office.

Yours Sincerely,

Louise Ryan
Landfill Manager
